

MONTHS OF SERVICE AWAIT GUARDSMEN

Three Military Departments Will Take Care of Mexican Border

TO NAME OFFICER

Funston Continues to Command Southern Department—Offer Pershing New Command

ASPECTS ARE UNCHANGED

WASHINGTON, July 3.—While the diplomatic aspects of the Mexican difficulty showed no change tonight, war department measures for a new distribution of the border patrol clearly indicated that months of active service along the frontier await the thousands of National Guardsmen gathering in the south from all parts of the country.

To Name General Officer

Only the appointment of a general officer to supreme command is lacking now to complete adequate administrative machinery not only for border operations but for a campaign of any desired proportions in Mexico, should general hostilities come.

Under the new plan the 1,800 mile frontier will be divided so that the Southern and Western military departments will take care of the eastern and Western extremes of the line respectively.

Major General Frederick Funston relieved from responsibility for the entire department, while Major General J. Franklin Bell, commanding the western department will transfer his headquarters from San Francisco to Douglas, Ariz., to be in direct touch with his share of the border work.

Offer Post to Pershing

The mid-section of the border line, embracing territory between El Paso and a point near Douglas, and reaching northward to the Colorado state line will be known hereafter as the department of New Mexico. Under its jurisdiction will fall the expedition into Mexico at Columbus, N. M., and Brigadier General John J. Pershing now commanding the expeditionary force, has been offered the post of department commander.

A message went to General Pershing today asking if he desired to assume the duties of department chief in addition to those which now fall to him as commander in the field. The expedition is believed to have about completed the movement begun ten days or more ago when General Pershing for strategic reasons ordered the lines drawn in closer to the border. The war department has no definite information as to the exact whereabouts of the various camps, but it is thought that the most advanced patrols now are within 150 miles of the border.

No reply had been received from General Pershing at a late hour tonight. It is possible that he will see difficulties in the way of combining command of the new department and of the expeditionary force under one head. In that case there are indications that he would be expected to relinquish direct command of the expedition and establish his headquarters at some point on the border where he could give personal attention to its needs and also supervise the disposition and training of the thousands of national guardsmen soon to be added to the portion of the line within the new department.

The war department has suggested El Paso for department headquarters but left the final choice to General Pershing. With the line of communications greatly shortened the general still could co-ordinate the operations of the various regiments now beyond the line, probably with the senior colonel assigned to general command of the expedition.

Consider Effect on Carranza.

In this connection officials here are known to be considering the effect this course might have on General Carranza's suspicions as to the real purposes of the American government. The expedition without a general officer in command would lose something of its significance in military eyes it is said and could be viewed as nothing more than the police force it was designed to be.

Some officials believe this might not be lost upon General Carranza and would tend to bear out the assertions of the Washington government that its troops would be withdrawn from Mexico as soon as the danger of bandit raids across the border had been ended.

Submission of the dual command proposal to General Pershing however, was viewed here as confirming the often reiterated statement that President Wilson is not now considering withdrawal of the expedition from Mexico. Final decision as to his course will await the formal re-

NATIONAL EDUCATION CONVENTION OPENS

DISCUSS PREPAREDNESS, EDUCATION AND PLANS FOR WORLD PEACE

Hold Departmental Meetings in Addition to General Session—Taft Tells of Plan and Aims of the League to Enforce Peace.

New York, July 3.—Preparedness, education and plans for world peace were discussed at the opening session of the annual convention of the National Education association here today. In addition to the general session, departmental meetings, at which phases of education were explained, were held. Among the speakers at the opening session were former President William Howard Taft, President David B. Johnson of association; Dr. Arthur Starr Jordan, vice president of the association and P. P. Claxton, commissioner of education.

The educators, numbering nearly twenty thousand from all parts of the United States were welcomed to the city by Mayor Mitchell and to the state by Governor Whitman.

Former President Taft devoted his address to an exposition of the plan and aims of the league to enforce peace, of which he is president. He declared that, although all the details of the plan have not been worked out the league is practical and is justified by precedent.

At the meeting of the American school peace league, it was decided to urge the contention that war maps be eliminated from the study of history and to treat only the cause, spirit and results of wars.

Speaking on "a national program of education," Commissioner Claxton expressed the opinion that the school term should be lengthened in most cities. In no city, he said, is the school year long enough. He asserted that the problem of University High school education should be faced frankly and that the average number of children attending high school should be, not 25 per cent, but 100 per cent.

WILSON SUBMITS PROMOTIONS OF ARMY OFFICERS TO SENATE

WASHINGTON, July 3.—Promotions of officers under the army reorganization act by which Brigadier General Albert Mills now chief of the division of militia affairs, will become a major general and five colonels will become brigadier generals were submitted to the senate today by President Wilson. The colonels chosen for promotion are Charles G. Morton, Fifth Infantry; Granger Adams, Fifth Field Artillery; George A. Dodd, Cavalry, unassigned; Edward H. Plummer, Twenty Eighth Infantry, and Clarence P. Townsley of the coast artillery corps. Four lieutenant colonels were nominated to be colonels, eleven majors to be lieutenant colonels, 21 captains to be majors, thirty one first lieutenants to be captains and 29 second lieutenants to be first lieutenants.

RUSH NEW MEXICO TROOPS TO GUARD THE ELEPHANT BUTTE DAM

COLUMBUS, N. M., July 3.—Troops of the New Mexico National Guard have been ordered rushed to the Elephant Butte Dam, one hundred and thirty miles northeast of Columbus. The dam is the second largest artificial body of water in the world and irrigates a valley for one hundred and fifty miles to the south.

Rumors of Dynamite Plot.

El Paso, Texas, July 3.—That New Mexico guardsmen had been sent to guard the Elephant dam was confirmed at department headquarters here tonight. There were unconfirmed rumors here tonight that the dam was in danger of being dynamited.

MEXICAN CAVALRY RIDES INTO PIEDRAS NEGRAS, MEX.

El Paso, Tex., July 3.—A large body of Mexican cavalry rode into Piedras Negras, Mexico, early tonight. The outposts on the American side of the river, several companies of the newly arrived Vermont and Kansas guardsmen took stations north of the town along the river bank. The remainder of the guardsmen were ordered not to leave the camp.

SCORE SCHEDULED TO START

Sioux City, Iowa, July 3.—More than a score of automobile drivers are scheduled to start in races on Sioux City speedway tomorrow. The track is fast and record-breaking time is predicted by the managers. There are three events on the program, ten, twenty, five and 100 miles. All the drivers are entered in each meet.

CENTRAL STATES TENNIS TOURNAMENT

St. Louis, Mo., July 3.—Opening play in the annual Central States championship tennis tournament on the courts of the St. Louis Athletic association called out a large crowd of enthusiasts today, as the tournament promises to be one of the most important of the year. Nearly a score of states have sent their foremost racquet wielders to contest for the titles. Play will continue thru the entire week. In addition to the Central States championships, the tournament will decide the representatives of the Missouri Valley in this year's play for the national doubles championship.

MRS. GREEN TO BE BURIED WEDNESDAY

Body Will Be Taken to Bellows Falls, Vt., By Son and Daughter

WAS ILL TWO MONTHS

Wall Street's Estimates of Mrs. Green's Fortune Range from \$20,000,000 to \$100,000,000

TURNED AFFAIRS OVER TO SON

NEW YORK, July 3.—Funeral services for Mrs. Hettie Green known as the world's wealthiest woman, who died here today at the home of her son, will be held Wednesday morning at Bellows Falls, Vermont, where she lived for many years. The body will be taken there tomorrow by her son, Col. Edward H. Green and her daughter Mrs. Matthews A. Wilks.

Mrs. Green for several weeks had been practically helpless because of three strokes of paralysis she had suffered during the past two months. Her death occurred at 8:05 o'clock this morning. Her son and daughter were at the bedside when she died.

Wall street's estimates of Mrs. Green's fortune range from \$20,000,000 to \$100,000,000. It was recently reported that her financial affairs had been turned over to her son.

Will Release Large Trust Fund

The death of Mrs. Green will release for distribution among a large number of people scattered all over the United States and abroad a trust fund said to amount to \$1,500,000. This is the residuary estate of her aunt which was to be divided on Mrs. Green's death among living descendants of Mrs. Green's great grandfather, Gideon Howland. It is said the living descendants constitute a small army in number.

Mrs. Green's Chicago holdings of real estate and mortgages were estimated at from \$10,000,000 to \$20,000,000.

Lived as Frugally as Shopgirl

Hetty Green was the world's most remarkable mistress of finance. Her fortune she has left is close to \$100,000,000. The richest woman in America, she lived almost as frugally as a shop-girl. Her home was wherever she chose for a time to hang her little black cape and bonnet, often in the hall bedroom of some cheap boarding house, or in some remote and modest flat around New York.

Her eccentric extremes of economy led to a popular misconception of her as a "self-made woman." As a matter of fact she was born rich. In 1865 she inherited some \$10,000,000 which accumulated upon itself until in fifty years it had multiplied nearly ten times. She also inherited family traditions which had been a pride for three centuries, and which she was anxious to perpetuate in her children.

She was just 30 years old when her father died suddenly leaving her his nine millions, one million outright and the income from the other eight, the principal to be held in trust for her children. It is forgotten that Hetty Green, then Robinson, was a belle in New York society. According to her own stories she often danced the whole night thru. Even then, however, she lived in a boarding house and was so saving that rather than pay cabfare, she would pull a pair of heavy woolen stockings over her shoes and walk thru the snow to parties.

Almost at the same time that her father died, her aunt, Sylvia Ann Howland, passed away, leaving several million dollars. It is said Hetty Robinson had been brought up from childhood to count this money as hers, and that the aunt expressed the hope that Hetty would some day become, as she did, the richest woman in the country.

The division of the aunt's estate, however, was not as expected. Three years after the aunt's death Hetty Green appeared in the United States Circuit Court in Massachusetts with a will which she wanted substituted for the one already probated. This will was in Mrs. Green's own handwriting, and some of the most famous experts of the day declared under oath their belief that the two signatures it contained were not made by the aunt, but were traced by Hetty Green herself over an original signature of Sylvia Ann Howland.

Reach Private Settlement

The litigation is one of the most famous in court annals. After an expense of \$172,000, the case was dismissed on a technicality. An appeal was made to the Supreme Court of the United States, but while this was pending a private settlement was reached.

From those days to the time of her death Hetty Green was involved in some law suit or other, asserting that lawyers were forever trying to rob her of her property. Her antipathy toward them was so violent that she said, "I would rather have my daughter burned at the stake

(Continued on page three.)

TELEGRAPHIC BRIEFS

QUINCY, Ill.—E. W. Wright, 65 years old, of Lyons, Ia., rated as one of the best engineers on the Mississippi river was found dead in bed on the steamer Keokuk here.

ST. PAUL, Minn.—Louis W. Hill, president of the Great Northern railroad, was appointed administrator of the estate of his father, the late James J. Hill.

UNIONTOWN, Pa.—Judge J. Q. Van Swearingen, of the common pleas court announced in court that every saloon, brewery and distillery in Fayette county must remain closed all of the fourth of July.

DUBLIN—via London.—The national directory of the United Irish League met with John Redmond presiding and agreed to accept the proposals made by David Lloyd-George for a solution of the Irish question.

NEW YORK.—The epidemic of infantile paralysis here has climbed to eighty two lives. Since Saturday noon there have been twenty three deaths. Many new cases have been reported.

SPRINGFIELD, Ill., July 3.—John Wyatt of Danville, Ill., a private in a battery of the field artillery, I. N. G., was shot by a farmer near the camp. At the battalion headquarters it was said Wyatt was shot accidentally and that his injury is not serious.

CHICAGO—George S. Bronson, a local druggist was shot and seriously wounded when he refused to sell morphine to two men who entered his store and demanded the drug at the point of revolvers.

EL PASO TO BECOME STATION OF SKELETON ARTILLERY BRIGADE

Concentration Will Make El Paso the Largest Artillery Station in the United States.

El Paso, Texas, July 3.—El Paso is to become the station of a skeleton brigade of field artillery under the command of Col. Granger Adams of the Fifth Field Artillery, it was learned here tonight. Organizations to make up the brigade are the Fifth United States artillery, the First Massachusetts field artillery, both of which regiments are here and batteries from Connecticut and Rhode Island, which are expected to arrive shortly. The concentration, according to military men will make El Paso the largest artillery station in the United States.

Immediately upon detaching today the Massachusetts regiment, consisting of 1,000 men and eighteen guns, began mounting their cannon on the mesa behind the city along the line of the regular artillery, their noses pointing toward Mexico. The rest of the brigade of the first Massachusetts cavalry also detached here today and immediately went into camp.

With practically all of the guard association here, drills and other work was begun today to whip the men into shape for field service in the heart of the border country.

Numbers of troop trains passed thru El Paso today and tonight bound for points west. General Francisco Gonzales, commanding the Juarez Garrison announced tonight that a special train would leave tomorrow for Villa Ahumada, carrying the El Paso undetachments designated to bring the bodies of the American soldiers who fell at Carrizal to the United States for burial.

While military preparations continued under pressure today, reports apparently without foundation, spread that General John J. Pershing's expeditionary force in Mexico was to be withdrawn. Official confirmation of these reports could not be obtained.

Shipments of supplies to the Colonia Dublan base from Columbus with little if any, slackening. General Pershing is estimated to be equipped with two months' food and forage.

GEN. FOSTER COMMANDING FIRST ILL. BRIGADE REACHES COMMAND

SAN ANTONIO, Texas, July 3.—General D. J. Foster, commanding the first Illinois Brigade, reached his command here today and began the supervision of its routine work. Three more regiments from Illinois and three from Wisconsin will complete the reserve force General Funston expects to hold here.

The first lot of Wisconsin troops, a battalion of artillery and a troop of cavalry should arrive early tomorrow. The first Illinois cavalry passed thru towards Brownsville and two more regiments, one from Kansas and one from Missouri, reached the border directly south of here. The Missouri troops went to Laredo and the Kansas troops to Eagle Pass. A part of the New York field artillery passed thru here and was on its way to Brownsville tonight.

NEW YORK GUARDSMEN STOP IN SPRINGFIELD

Springfield, Ill., July 3.—A long train carrying New York National Guardsmen stopped here for a few minutes tonight enroute to the Mexican border. Major General John F. O'Ryan, in command of the troops and his staff took luncheon with Adjutant General Dickson, commander of the Illinois militia and members of his staff.

FRENCH SCORE NOTABLE GAINS

Advance More Than Three Miles Toward Perrone in the Somme Region

CAPTURE SIX TOWNS

British Report Substantial Progress in Some Places and Repulse of Counter Attacks

VERDUN OPERATIONS SLACKEN

Under command of the dashing General Foch, the French troops, which are co-operating with the British in the great offensive in the Somme river region, have made notable gains in the direction of Peronne, one of the most important strategic points along that front. Successively they have captured Herbecourt, Feuilleres, and Flaucourt, and farther to the south French infantry stormed and occupied Assevillers. They followed this success by carrying the second line of German entrenchments as far as the outskirts of Estres. Then came the capture of Buscourt and Flaucourt.

Gain More Than Three Miles.

Something more than three miles was thus gained, which, added to previous gains, gives the French troops a clear advance of about six miles at the farthest point to within three miles of Peronne.

Meanwhile, the British, moving more slowly but over a longer front, have captured LaBoiselle, where the fighting for the last two days has been of the fiercest character. The British also report "substantial progress in some places," and the repulse of many counter-attacks by the Germans. British troops however, have been forced back from some of the positions which they had taken early Monday morning and it is evident that the German artillery fire has become much heavier than during the earlier stages of the battle.

The prisoners taken by the British so far number 4,300, while the French have captured 8,000 or more. The war material taken by the French include seven batteries, three of large caliber, many machine guns and trench guns. Other batteries in casemates also fell into the hands of the French.

Beyond admitting the withdrawal of a division from the first line trenches on the Somme, the German official statement, makes meager reference to the battle now in progress.

Verdun Operations Slackening.

The Verdun operations apparently are slackening, altho at certain points a heavy bombardment is being carried out but the infantry are resting.

Aerial activity is increasing in connection with the battle of the Somme, hundreds of aeroplanes being in action. In the three days' engagements, the British have lost fifteen machines.

The Russian war office reports the capture of 2,300 prisoners in the various sectors of the eastern front. There is heavy fighting at many points on the Russian front, and the Austrians have opened a powerful offensive south of Lwewka, and west of Lutsk they inaugurated other aggressive actions, but according to Petrograd were repulsed.

The Italian offensive continues without cessation, both artillery and infantry being employed in strong force against the Austrians.

MAKE APPEAL TO AVOID WAR

Washington, July 3.—An appeal to the government and the people of the United States and Mexico to do everything possible to avoid war, was issued tonight by a joint committee of officials of organized labor in the two countries which has been in session here at headquarters of the American Federation of Labor. It is suggested that a commission of Mexicans and Americans be appointed to adjust existing differences, which are declared due to a "misunderstanding growing out of inadequate information."

BOY IS BADLY BURNED

Dubuque, Ia., July 3.—Leo Gerlach, 14 years old son of William Gerlach, prominent farmer at Bellevue, Ia., is in a hospital here suffering from powder burns sustained in a premature Fourth of July celebration yesterday afternoon.

Both of the child's eyes were destroyed by the explosion of a can of powder he was carrying.

WOULD GIVE MONEY FOR DEFENSE.

Washington, July 3.—Mayor Thayer of Ripon, Wis., the town which desires to give up a \$75,000 appropriation for a public building for national defense purposes, today telegraphed Senator Harding urging action toward that end. A bill has been introduced by Senator Hastings to turn the \$75,000 over to the army aviation service.

U. S. HAS 12,000,000 MEN OF MILITARY AGE

CENSUS BUREAU TABLE ESTIMATES NUMBER SUBJECT TO SERVICE

Bases Estimates on Assumption that There Has Been an Increase of Ten Percent in the Population Since 1910.

Washington, July 3.—A census bureau table issued today estimates the number of able bodied men of military age in the United States at about 12,000,000 men.

The estimate is based on the assumption that there has been an increase of ten percent in the population, when the total male population over 18 years, and under 46 was 19,183,000. Of this number 14,224,000 were native whites, 2,857,000 were foreign born whites who had become naturalized, 2,052,000 were negroes and 50,000 were Indians.

During the Civil War when the population of the country exclusive of the seceding states were less than one fourth as great as the total present population the number of men serving in the northern at one time or another, was 2,500,000. There are four states, New York, Pennsylvania, Ohio and Illinois where the men of military age number more than 1,000,000. In geographical sub-divisions the total for the northern states is 13,094,615, for the southern states 6,006,139, and for the western states 1,970,322.

HUGHES BEGINS DETAILED STUDY OF THE APPROACHING CAMPAIGN

BRIDGEHAMPTON, N. Y., July 3.—Charles E. Hughes today began a careful detailed study of all phases of the approaching campaign—a task which will engross his entire attention during the rest of his stay here. For more than a month he expects to do little else than study and equip himself to discuss in detail all issues of the campaign.

Hundreds of documents, letters, reports, newspaper clippings and suggestions have been arranged for his attention and lie in a battery of letter files in his library. The nominee expects to read them all. He told callers today that he had left New York because he had found it almost impossible to concentrate his mind on his task amid the interruption there, that he expected to prepare what he termed "the case of the Republican party against Woodrow Wilson," with the painstaking care that a lawyer devotes to an important suit and that he has come to Bridgehampton to get "mentally saturated with facts in quiet and seclusion."

30,000 GUARDSMEN FROM EAST ARE ON BORDER OR ON THE WAY

NEW YORK, July 3.—Approximately 30,000 national guardsmen of the department of the east either will be on the Mexican border or on the way there on Independence day, it was announced tonight at Governor's Island divisional headquarters. Reports from the 22 states comprising the department showed that more than 60,000 troops had been mobilized in all of the states.

Major General Wood reported to the war department late tonight that the total mustered into U. S. service tonight was 45,409 men for the department.

It will cost the United States about \$1,500,000 to transport the New York national guard to the border, it was estimated at headquarters tonight.

CONFEREES ON RIVER AND HARBOR BILL REACH AN AGREEMENT

WASHINGTON, July 3.—Conferees on the river and harbor appropriation bill today agreed on a measure carrying \$42,886,085. The bill as it passed the house carried \$39,600,000, and as it passed the senate \$44,000,000.

The conferees struck out the senate amendment limiting the amount of water to be diverted from Lake Michigan for the Illinois river improvement and otherwise regulating the Illinois river improvements.

Senate amendments agreed to include \$1,000,000 instead of \$600,000 for improvement of passes at the mouth of the Mississippi river; \$1,500,000 for improvement of the Mississippi instead of \$1,200,000.

SOUTHERN TENNIS MEET AT MEMPHIS

Memphis, Tenn., July 3.—The twenty-ninth annual lawn tennis tournament for the championship of the South began in this city today and will continue thruout the week. The outlook is bright for one of the most successful tournaments held in this section in years. Many high-class entries exclusive of these from Memphis Country Club, on whose courts and under whose auspices the meet is being held have been listed. The club has offered new trophies for the Men's doubles championship, the old cups having become the permanent possession of Nat Thornton and B. M. Grant by virtue of their third successive win last year.

Miss Alrich Taylor, who has been teaching in the east the past year, is in Jacksonville for a summer visit with her parents, Mr. and Mrs. C. W. Taylor of Grove street.

DICKSON TO CALL FIFTH AND SIXTH

Will Be Taken to Camp Dunne "For Instruction" Within Ten Days

RECOGNIZE A BATTERY

Every Remaining Organization in Camp is Either Entraining or Preparing to Entrain

REINSTATE GUARD OFFICERS

SPRINGFIELD, Ill., July 3.—The war department today recognized a Battery of field artillery from Danville and reinstated into the federal service Col. Charles H. Greene, commander of the Third Infantry regiment and Major Charles A. Walz of the First Cavalry regiment, Illinois National Guard, who had been rejected on account of physical deficiencies.

To Call Out Fifth and Sixth. Adjutant General Dickson said tonight that the Fifth and Sixth Infantry Regiments, the only organizations of the Illinois National Guard not now mobilized will be brought to Camp Dunne "for instruction" within the next ten days. Their stay here will take the place of their annual summer encampment of twelve days which usually is held in August. A Battery was mustered into the federal service tonight.

Tonight every remaining organization at Camp Dunne and Lincoln were either entraining or preparing to entrain. The guns, ammunition carriages, and other rolling stock of the field artillery are loaded on forty one flat cars. Tomorrow tents and other equipment will be loaded and at five o'clock tomorrow evening both battalions of the artillery are scheduled to leave on Chicago and Alton trains for the Mexican border. Armed guards patrolled the vicinity of the troop trains all night.

The eighth (negro) regiment, due to leave tonight, will not get out before tomorrow railroad officials said. The engineer company and the signal corps will leave on one train and the two field hospital companies on another also at five p. m., tomorrow.

Artillery to Leave Tuesday Night. Somewhat of a mystery was created here by the receipt of a telegram from General Barry at Chicago by Colonel E. M. Lewis, chief muster-in officer, directing the latter to delay sending the remaining organizations to the border until General Funston indicated where he desired the various units to go. In spite of this order the artillery commanders tonight said they had instructions to leave tomorrow night. No official information as to their destination was available but at Camp Lincoln, a report was spread that the artillery would be sent to Columbus, St. M. Before General Barry's latest message was received it was understood the artillery would go to San Antonio.

Local military officials were notified tonight no more tourist coaches could be supplied troops leaving Springfield, but sleepers might meet the trains enroute.

Colonel Green and Major Walz plan to leave tomorrow to join their respective commands. Lieutenant Fred V. Heding of I company, third Infantry and Lieutenant Horace R. Denton of E Battery also were notified tonight the war department had waived the physical deficiencies on account of which they were rejected by the regular army examiners.

NEW JERSEY TROOPS IN CAMP

Douglas, Ariz., July 3.—Approximately 1,000 New Jersey militiamen were encamped tonight at Camp Frederick, northwest of Douglas after a tiresome journey across the continent. Several thousand additional national guardsmen are expected by the end of this week.

THREE DIE FROM HEAT.

St. Louis, July 3.—Three deaths from heat were reported to the police in St. Louis today. All occurred in the forenoon and early afternoon before the rain which began falling at three p. m., brought a twenty degree drop in the temperature. The high temperature was 94 degrees and the low 74 degrees.

WEATHER INDICATIONS AND TEMPERATURES.

ILLINOIS: Generally fair Tuesday and probably Wednesday, somewhat warmer Tuesday.

Temperatures.

WILL PLAY FINALS TODAY.

The finals in the city tennis tournament will be played at 10 o'clock this morning on the court of Walter Bellatti. It was the intention to play the finals on the court at Nichols park but the players say the backstops are so close that good playing would be impossible.

The finals will be played between Dick Rowe and Marcy Osborne. It is unfortunate that the tournament was not started sooner as it would have been an interesting event. Many of the games were defaulted on account of players leaving the city. James Capps went to Michigan and defaulted with Paul Moriarty also defaulted on account of leaving the city. Both these players are considered among the best in the city and Moriarty was picked by many as the probable winner of the tournament.

Women who cook and men who pay gas bills should read Brady Bros. adv. on gas stoves today on page 10.

HAVE TAKEN BODE RESIDENCE.
Mr. and Mrs. Edward A. Brennan and family of the Pacific hotel have taken the residence of F. H. Bode, 1022 West Lafayette avenue for the remainder of the summer. Mr. Bode's family has been in California for some time.

G. Vertrees of Waverly spent Monday in the city on business.

CHARLES E. HUGHES.

Commandeering Munitions.

There are already indications that the Germans and their allies have not been guilty of misjudgment in the belief that a war between the United States and Mexico would be helpful to them in reducing the shipment of munitions. In fact, there is already direct evidence that the U. S. government has commandeered vast quantities of blankets which had been ordered from American manufacturers by the Russian government. If in the preliminary arrangements for troop movement it is necessary to seize supplies intended for abroad, it can readily be understood what a change in foreign shipments there would be if a state of war between the U. S. and Mexico actually existed.

THE BELL OF '76.

That bell is cracked and silent now that it pealed from shore to shore, proclaiming to a watching world our liberty of yore. The tones which broke the breathless spell, and woke the waiting throngs, we do not hear, but evermore they live within our songs. Bold were the men with pen in hand who waited to affix, unto that declaration, their name in '76. When written was the last name there a ringing shout burst forth, proclaiming that the throes were o'er which gave our nation birth. Then, oh that bell, how it rang out, its notes resounding clear, that men had gained their hearts desire, their liberty so dear. And down the ages o'er and o'er, that bell tho cracked and old, to countless thousands gathering near, its silent message told. Tho all are gone who heard that bell that Independence day, yet lives the spirit of '76, those magic tones still sway.

—S. Adrian Hughes.

The Aztec Club

While young men of today are watching the events along the Rio Grande with interest, these events are followed even more closely by members of the Aztec club of 1847. This organization, which now has headquarters in Washington, was founded in the city of Mexico when the American army occupied that city in '47. At that time most of the members were young lieutenants who thus sought to increase their social advantages. The organization has kept intact ever since that date and the membership has included numerous illustrious statesmen and soldiers. The first president was Gen. Franklin Pierce, afterwards president of the United States. Today the club has about 200 members, nearly all of whom fought in the armies of Scott and Taylor in '47. Only men who were engaged in the Mexican campaign and their nearest relatives are eligible to membership.

The Patriotism of Today
Today Americans, whether they are at home or abroad, will celebrate the 140th anniversary of the nation's independence. In the cities, towns and villages the celebrations in many

Rippling Rhymes By WALT MASON

TOBACCO

Tobacco is a harmful weed, the learned physicians are agreed. It stains the teeth and bites the tongue, stains the teeth and bites the tongue.

it spoils the whistlers, taints the breath, and sends an an to an early death, and when he's laid beneath the sod, the legal lights divide his wad. And yet if this punk weed were barred, we'd find the sledding pretty hard, for in one thing tobacco's best, in that it soothes the savage breast. And many husbands are sore, who would be quarrelsome and mean, indulging off in mental grines if you should take away their pipe. When I am smoking I'm as mild as any gent that ever smiled, and folks who hear me chirp and bleat, remark, "His temper is so sweet!" But when, impelled by aims sublime, I cut out smoking for a time, I'm sore as any growling bear, that mumbles sonophones in its lair, and all the women in the shack are hoping I will soon get back to blowing smoke around my room, 'cuz tho it means an early tomb.

DATES IN ILLINOIS HISTORY.

July 4, 1634—Jean Nicolet discovered Lake Michigan, then called the "Lake of the Illinois."

instances will take on something more than mere noise and display. Underneath the formal celebration will run the thought that today the United States is in a more perilous position than it has occupied for many years before. Perilous in this case does not mean dangerous, but that the country touches upon the possibility of war with Mexico and delicate diplomatic relations with European countries may arise at any time.

So today, as has not been true to such an extent for years, the story of the struggle of the forefathers for self-respect and liberty will be retold. The stern spirits of their ancestors will be recalled, and what it meant in '76 will be emphasized, along with what that spirit has meant thru the years during which this great republic has been building. The history of this country is one great story of patriotism, and while events in the later years of our history have not been such as to inspire demonstrative patriotism, the love of country has not diminished. Today America stands ready to prove worthy of its ancestry, ready to meet all conditions which may come and faces the world with an unbroken front; "Too proud to fight" if there be no good reason, and proud to fight if the honor of the country is assailed.

Lansing's Presidential Chances Wane
The chances Secretary Lansing has of being president of the United States for one day because March 4 next falls on Sunday have disappeared. The history of the United States shows that the second term of James Madison began on Sunday March 4, 1821 and Zachary Taylor's term began Sunday, March 4, 1849. These presidents took the oath of office and were inaugurated on Monday and thus the country was without a president for twenty-four hours. But when Rutherford B. Hayes' term began Sunday, March 4, 1877, he took the oath of office on the Saturday preceding and was inaugurated on Monday. The law seems to be that a president is qualified to serve when he has taken the oath and while the other formalities of inauguration are customary, they are not obligatory under the law. So the next president of the United States will be very likely to follow President Hayes' precedent and take the oath of office Saturday, March 3, 1917. It would probably be more correct to say that Charles E. Hughes will take the oath of office on that date.

Tried Men Needed.

"Uncle" Joe Cannon in a recent interview made a statement which merits emphasis. He was talking about the advantage of renominating representatives in congress who have made good records in the house and who have attained ranking places on committees. If such men are re-elected they are almost certain in view of customs in congress to be retained on the several committees. This suggestion of "Uncle" Joe's would be good at any time because it is a well known fact that the average member of congress is of little value to his country at large or to the particular constituency he represents until he has been in Washington several years. At this election it is even more important than usual for seasoned members of congress to be chosen because of the importance of questions now pending and of others which press for settlement. The existing conditions between the United States and Mexico, no matter what developments may come between now and election, demand especial care in the choice of congress members, and the same thing applies with reference to the European war. There are some big home and foreign questions which must be considered if the war continues or if peace comes, and the next president of the United States needs a congress of capable and experienced men.

Busy Days For Red Cross.

These are busy days for the American National Red Cross Society, which has its headquarters in the stately marble edifice that faces the wide sweep of grounds back of the State Department and White House. Since the present war cloud appeared on the horizon the headquarters of the society has become a veritable bee-hive of industry. Within the past week many extra clerks have been engaged to handle the work of the nurses enrollment bureau, the hospital field units division and the other departments of the organization which, in the event of real warfare between the United States and Mexico, will have a leading part in supervising the work of "ameliorating the condition of wounded soldiers in the armies in campaigns on land or sea."

No details of the preparations made by the society to carry on its work have been made public, since the secrecy that surrounds the work of the War Department in these days also extended to the Red Cross. It has been learned that parties of field workers have already been despatched to the vicinity of the Rio Grande, but the exact points of destination have been kept secret for the reason that to make them public would be to divulge the future plans of the War Department.

Fortunately the Red Cross society has always practiced preparedness. The war relief board, which is the bureau of the society that will have charge of the organization work in the event of actual hostilities, is thoroughly prepared for the task that now confronts it. Months ago it made a thorough study of field hospitals, ambulances, private automobiles, the supply of capable volunteer nurses and kindred subjects, so that there would be no danger of unpreparedness in just such an emergency as has now arisen.

MRS. ALBERS FUNERAL HELD AT BLUFFS SUNDAY.

Auto Accident Delayed Services until Afternoon—General News Notes.

Bluffs, July 3.—The funeral of Mrs. Edward Albers was held at the home of her parents, Mr. and Mrs. A. W. Baird at 4:30 p. m. Sunday. Father Maloney of Mt. Sterling officiating. The services were to have been held at the church of St. Pat, rick at 2:30 and the many sympathizing friends gathered there at that time. An auto accident, however, prevented the arrival of the priest until 4:30. Owing to the lateness of the hour, brief services were held on the lawn in the presence of about two hundred seventy five relatives and friends. The flowers were cared for by Misses Bernice Wolford, Bessie Thompson and Mabel Green.

The bearers were Walter Baird, George, Lee and Benjamin, brothers of the deceased, and Victor Knoepfel and Charles Gillman, brothers-in-law. Those in attendance from Beardstown were Mrs. Marie Yates, Mr. George Lukemier, Mrs. Anna Davis, Mr. and Mrs. Wm. Knippenburg, Mr. and Mrs. Fred Albers and daughter, Edith; Mr. and Mrs. H. Knippenburg and son Harry; Mr. and Mrs. Charles Gulker and son Albert; Mr. and Mrs. Samuel Hansmeyer and children; Mr. and Mrs. John Ruppel and Mrs. William West. From Springfield were Mrs. Elizabeth Ryan, Mrs. An Ryan, Mr. and Mrs. Walter Rya and Mrs. Ed. Sarsfield. From Jacksonville were Mrs. Frank Davis, Mrs. Pat Quinlan and son, Walter, also Mrs. Margaret Hughes, Chicago and Mrs. Nora Davidson, Havana. Interment took place at the Greene cemetery south of town.

Mr. and Mrs. Henry Knoepfel have returned from Jacksonville, where they spent last week on their dairy farm one mile east of the city. Mrs. Herman Finney and son Richard were shopping in Quincy Friday of last week.

Mr. and Mrs. John Smith have returned to their home in Plymouth. Dewey Collins arrived from Springfield Monday for a visit with his brother, Charles Collins and family.

Mrs. E. A. Shore is visiting friends in Springfield this week. Mrs. M. E. Bennett and daughter, Mrs. Joe Martin were Quincy visitors Friday.

Frank Rockwood of Merritt was a caller in town Friday.

Funeral services for Mrs. E. Albers who died Friday were held at the St. Patrick church Monday morning at 9:30, July 3. Father Maloney of Mt. Sterling officiated.

District Sunday School convention will be held at the Christian church in Exeter Sunday, July 3, at 2:15.

S. R. Clark returned Friday from New Hampshire and other points in the east where he has been visiting relatives and friends for the past months.

Mr. and Mrs. Wm. Wilday, Mrs. Fanny Gray and Mr. and Mrs. Edna Gray were business visitors in Jacksonville Wednesday.

Mrs. Elmer Brockhouse of Concord is the guest of her parents, Mr. and Mrs. Richard Northrup.

Mr. and Mrs. Lucian Hale and children are expected to arrive Sunday evening for a visit with his parents, Mr. and Mrs. George Hale.

SPECIAL SALE OF SUMMER DRESSES TOMORROW AT HERMAN'S.

HEBRON PLANS MODERN CHURCH BUILDING

As previously mentioned, the people of Hebron church are preparing for a new building and are soon to let the contract. The building committee includes James Matton, J. C. Swann, Eugene Hart and Rev. C. H. Davis, pastor of the church. The plans which Architect C. W. Buckingham has in hand call for the expenditure of about \$7,000. There will be an auditorium and lecture room, together with smaller rooms for Sunday school classes. A basement room will provide spacious quarters for social events of the church. A furnace and electric lights will be among the conveniences provided.

The Hebron church is one of the most historic in this county and some of the camp meetings famous in early days of the county were held there. Veteran ministers of the church have occupied the pulpit and taken part in the special services.

TURNED CAR INTO DITCH.

What might have been a more serious accident occurred Monday evening just east of the city on the first road running south from the hard roads, when the Ford owned by William Zastro was turned into the ditch and spilled the occupants. The driver it seems turned around to speak to some one following and the car shot into the ditch. The occupants of the car were: William Zastro, Charles Birdsell, Lee Jordan and William McGhee. William Newman brought two of the men to Passavant hospital and sent men to bring in the damaged car. The extent of the injuries of the two men is not known but it is not believed that they are seriously hurt. The car was damaged considerably.

THE FILM NOVEL OF THE HOUR!

"The Secret of the Submarine"

A Mystery Within a Mystery!

Produced and distributed by the creators of the Titanic Successes—"The Diamond from the Sky" and "The Girl and the Game."

Here's the climax of all motion picture productions—the greatest picture idea yet conceived, worked into amazing situations filling every foot of film with remarkable thrills.

In "The Secret of the Submarine" is every element of success—Timeliness—Patriotism—Great Adventure—Closely-Drawn Characters—Invention—Love—Suspense—Mystery—Intense Dramatic Situations—Comedy! Months have been spent—hundreds of thousands of dollars paid out on the production. Spectacular scenic constructions were developed by the producing organization, The American Film Company, Inc., at its studios in Santa Barbara, California, and elsewhere. The U. S. Government placed submarines at the company's disposal. Big naval crews were used. Ships were chartered. Ordnance—wireless—the secret service—battleships—all were put into service. Thousands of miles were traveled. The most unusual locations were chosen. Nothing has been omitted—no detail has been skipped. Every instant of action is true to the original story. Every chapter will be a smashing sensation in the leading picture houses of the nation!

James E. Blair of Alton died in a St. Louis hospital Saturday morning. Deceased formerly resided near Glasgow and was well known in Scott county. Funeral services were held in Glasgow Monday.
C. W. Hyde, a well known resident of the Bluffs neighborhood, was a visitor in Jacksonville Monday.

COMPANY B. WILL SOON GO INTO CAMP.
Adjutant General Dickson Says Fifth and Sixth Regiments Will Have Drill Training Order Within Ten Days.
Members of Company B., were very much pleased last night by the announcement issued by Adjutant General Dickson from Springfield that the 5th and 6th regiments will be mobilized there within ten days' time for the annual drill and encampment. This will take the place of the encampment which is scheduled for August. The members of the local company believe that this order will be the first step toward being included in the order for moving to the Mexican border.

Company C. of Springfield and the company at Hillsboro have been added to the 5th regiment since the first mobilization order came and these companies must be inspected by a government officer before they can be counted as a part of the regiment from the government's standpoint. General Dickson has sent a message to Washington stating the companies are ready for inspection and the reply was that inspection would be given just as soon as possible. The members of the companies are expecting that the inspection will take place while they are in camp at Springfield and they believe that not long afterward they will be on the way to Mexico.

Thomas-Gisson.

Archibald Thomas of Oakford and Miss Maude Gisson of Astoria were married by Judge Thomson at his office in the court house Monday. The groom is a railroad telegraph operator employed at Oakford in Mason county. John Hodgson and Paul Samuel were the witnesses to the ceremony.

AN IMPORTANT ANNIVERSARY

Fifty years ago yesterday Fred Fischer and William Suhy of this city participated in a great battle, one on one side and one on the other. Prussia was fighting Austria and the Austrians, with whom Mr. Suhy was fighting held Fort Koeniggratz which the Prussians attacked. The Prussians were driven back at eleven in the morning and retreated till nearly three in the afternoon when they received reinforcements and drove the Austrians. The latter crossed the river on pontoon boats camped in a cemetery with little to eat, pressed on next day to Presburg near the river Danube in Hungary. There was no more fighting, peace having been arranged between the warring people.

Mr. Suhy recalls the day with great vividness and says it was indeed a time to try men's souls. He and Mr. Fischer occasionally discuss the matter and tho they fought then on opposite sides they are now good friends and fellow citizens of the United States.

Mr. Fischer was also in the Franco Prussian war and shows with pardonable pride and satisfaction a medal received for bravery in each conflict and Mr. Suhy has one for the part he took in the war between Prussia and Austria. Mr. Fischer shows a mark of a bullet on his forehead.

HAS SON IN ARMY

James M. Green, formerly of this county and who is now a prosperous farmer near LaMar, Mo., has written friends here that his son, Carl, has gone to the border with U. S. troops. The young man, who is well known to a number of Jacksonville and Morgan county people, is a member of company C of the second Missouri regiment.

MRS. GREEN TO BE BURIED WEDNESDAY

(Continued from page one.)

than to go thru what I have with lawyers."

She married in 1867. Her husband was Edward H. Green, who was United States Consul General in Manila, where he had made a fortune in the silk trade. It is said Green, at a public dinner, heard someone speak of Hetty Robinson as "the greatest American heiress," and straightaway announced his determination to marry her. Before the wedding day an agreement was signed to the effect that the wife's fortune should never be drawn to meet the husband's debts or any of their joint expenses. He died in 1902 after having lost most of his money in Wall street.

Both Hetty Green and he did business there for many years, but on separate accounts. Old Wall street men have told innumerable stories about her closeness. Dressed in simple and sometimes shabby black, with a little bonnet that would stand a lot of wear, the woman of millions moved about in downtown New York, recognized only by few who had been initiated into the secret of her identity. She never rode in a carriage, and was never seen at the theatre or opera. Her abiding place was usually a mystery to the tax-collector, whom she admittedly dodged.

William Jennings Bryan when in Congress arguing in favor of an income tax said:

"Hetty Green enjoys an income which can scarcely be less than \$3,000,000 a year, yet she lives at a cheap boarding house and spends only a few hundred dollars. This woman, under your indirect system of taxation, does not pay as much towards the support of the Federal Government as a laboring man whose income of \$500 is spent upon his family."

Her most pretentious home was at Bellows Falls, Vt., where she spent many summers, but even this place was notorious for never being in repair. In winter she hid herself in some of the least expensive neighborhoods around New York, guarding her identity by putting the name of her pet dog "Dewey" on the doorplate. Her daughter, Sylvia, was her only companion. The latter she kept from society, but in 1909 consented to her marriage, at the age of thirty, to Matthew Astor Wilkes, a wealthy New Yorker of 57 years. The lonely mother then removed herself for a time to a suite of rooms in one of the most fashionable Fifth Avenue Hotels, but this luxury was soon given up.

She emphatically denied that her disposition was miserly. During the panic of 1907-08 she made loans which tilted over many wealthy New Yorkers. Two years before the panic, it was said, she had gathered in a large portion of her money and was prepared when the storm broke to lend a helping hand, at a good rate of interest. It was sometimes intimated that upon her death the country might be surprised at the disposition she would make of her wealth.

ALEXANDER

Mr. and Mrs. Frank Drury of Orleans departed Monday evening for New York city for a visit of several weeks with relatives and friends.

Mr. and Mrs. Ralph Miller and two children have gone to Springfield for a visit. They also will visit with friends in Lowell and Waverly before returning home.

Mrs. Frank Kaiser will entertain a small company today at dinner in honor of the birthday anniversary of her twin sons, Paul and Carl. The youngster's birthdays fall on the fifth but Mrs. Kaiser is celebrating it on the Nation's birthday.

Mr. and Mrs. F. B. Six and daughter Harriet, Mr. and Mrs. Luther Wiley and Miss Lois Dee were Sunday visitors in Jacksonville.

The Morgan county Ramblers played a game with Alexander Sunday the score resulting 9 to 3 in favor of Alexander. There was a large crowd present and the game proved an interesting one.

Miss Mary Hohman and Mrs. Alex Watret were Monday visitors in Jacksonville.

PURCHASED FINE CATTLE

Thomas S. Knoles recently purchased from Prince Coates of Scott county twenty-one head of cattle which averaged 1,480 lbs. The purchase price was \$10.25 a hundred and is said to be the highest price at which Mr. Coates has ever sold cattle. The steers were all in fine condition and will certainly make a good showing on the market.

Miss Nell Reaugh, head of the department of home economics at the Collinsville schools, has returned to Jacksonville for the summer vacation.

WIPE OUT BLACKBURN'S DEBT

The campaign to wipe out a debt of \$20,000 at Blackburn college at Collinsville has been successfully completed. Sometime ago the trustees found the buildings at the college so badly in need of repairs that \$20,000 was expended in absolute necessary improvements. This constituted an annoying debt until the campaign just concluded.

Pershing Concentrates Forces

General Pershing has withdrawn the southernmost part of his force and has concentrated his main body in such manner as to withstand any attack the Mexican army might make. This most southern station today was at El Valle, some thirty miles north of Namiquipa. His headquarters remained at Colonia Dublin. Two main points of concentration in easy reach of each other have been established but just where the two concentrations are is information that General Funston is withholding. It is known however, that connecting posts have been maintained in such way that General Pershing could reinforce quickly any point menaced or attacked. Should it be decided however, to withdraw the force, it could be removed without great confusion or loss of time.

The retreat would be delayed somewhat by the necessity of loading and removing the big lot of supplies that have gone forward steadily for many weeks.

Acting on the assumption that the administration might call upon the army to readjust relations with Mexico, General Funston and his staff have planned the disposition of the

Funston Awaiting Orders

San Antonio, Texas, July 3.—Major General Funston who has had command of the entire border army was awaiting orders from the war department tonight to turn over the direction of the El Paso base and everything west of these. Unofficially he had been advised earlier in the day that the recommendations he made several days ago, that the border be placed under the command of three major generals, had been acted upon by the secretary of war. Later news from Washington indicated that General Funston would continue to have charge of everything to the Arizona state line for the present.

It was expected here that Major J. Franklin Bell, commanding the western department would take over the Western end of the line without delay but General Pershing's assumption of the New Mexico department including the El Paso base will be delayed pending the working out of "minor details."

The announcement from Washington that General Pershing would not undertake the direction of this command immediately was accompanied by a rumor difficult to trace that the punitive expedition he now commands in Chihuahua was to be withdrawn.

No intimation that the administration had determined to withdraw the punitive force had been received at army headquarters here nor was much credence given the report.

MONTHS OF SERVICE AWAIT GUARDSMEN

(Continued from page one.)

ply to Secretary Lansing's note demanding that General Carranza explain his hostile orders to his troops in the vicinity of the expeditionary columns.

It can be stated on the highest authority that General Pershing's orders have not been changed in any respect and that the shortening of his lines was made necessary by purely military questions of supply and defense, determined by himself and General Funston without reference to Washington.

Complete lack of any local supplies of forage as well as the apparent imminence of a Mexican attack in force, led General Pershing to order his men northward. Northern Mexico has experienced many dry weeks. The rainy season is delayed. The result has been that the motor trains have had to carry south everything consumed by the command and its mounts. Eliseo Arredondo, Mexican ambassador-designate pointed out today that the movement of the American troops towards the border had created a good impression in Mexico City. He was hopeful that the differences between the two governments would be adjusted.

As supporting the declarations of his government that it was taking all possible steps to stop bandit operations in the border region Mr. Arredondo said that as rapidly as General Pershing's men had moved northward Mexican troops had taken their places and a strict police control of the territory had been maintained.

This situation already had presented itself to state department officials.

While the hostile utterances and orders of the de facto government have brought about a crisis, the object which the Washington government has consistently sought, it was pointed out, seems in a fair way toward being accomplished.

There never has been any purpose, it was said, but to withdraw completely from Mexico when the de facto government showed the willingness and ability to furnish adequate military protection to the border region. That now is being given, apparently, in the sections from which General Pershing has withdrawn, altho it also has appeared that the Mexican troops are being disposed for the primary purpose of making a display of force against any movements by the Americans. It is not known whether this aspect of the situation has been called to President Wilson's attention or whether it may be regarded as justifying further retirement toward the border. Up to this time, however, there has been no change in policy and no movements ordered by General Pershing have been made with any other military objects.

The state department had no advice today regarding the probable date when a reply to the demands presented more than a week ago might be received. Mr. Arredondo also professed ignorance of his government's plans.

BAPTIST CHURCH BIRTHDAY FITTINGLY OBSERVED

Rev. T. H. Marsh, Former Pastor, Here For Sunday Services—Church Has History Notable For Useful Work.

The seventy-fifth anniversary of the founding of the First Baptist church in this city was fittingly observed Sunday. The services of the day were marked by good attendance and unusual interest. The choir, under direction of Mrs. Lucy D. Kolp rendered appropriate music at both services, and at the morning service Miss Ruth Leach sang "The Penitent," by Van de Water. In the evening a duet number, "The Lord is My Shepherd," was given by Miss Frances Kolp and Mrs. Lona Huss.

Dr. David Hoagley, of the North Baptist Theological seminary of Chicago, in the morning address reviewed the growth of the Baptist denomination in the past and emphasized the obligations which it must meet if its development in the future is to be uninterrupted.

Rev. T. H. Marsh, for eight years pastor of First Baptist church and now of Decatur, was heard in the evening, his theme being "The Debt of Liberty to Jesus Christ." He dwelt upon the fact that the real mission of Christ to the earth was to establish the equality of man and that in this particular the Christian religion is superior to all other religions.

The history of the Baptist church in Jacksonville, covering a long period of years and recording many important facts in the early days of the church, was read by Carl E. Robinson. This record was gathered from various sources and is the most complete ever compiled. Some of the facts embodied in the paper were as follows:

Early Church History

In the year 1841 a number of people of the Baptist denomination living in Jacksonville and vicinity made an effort to learn the number and names of those who were inclined to enter into a church organization. Thirty persons indicated their willingness to support the plan, and the Rev. Alva Bailey was invited to preach to them every other Sunday. The first sermon was delivered on the second Sunday in April, 1841, and on June 27 of the same year "The First Baptist Church of Christ in Jacksonville, Ill.," was publicly recognized. The services on this occasion were in charge of Rev. G. B. Perry and Rev. Alva Bailey. Of the thirty original members of the church, many of the family names are unfamiliar to those of the present generation, tho a few may still be noted in the membership of the church.

The first deacon was John Humphrey, a man wielding a strong influence for good in the neighborhood, and Chapin Allen was made the first clerk. In addition to the deacons named in the issue of Sunday morning the following have served in that capacity during the years: Geo. H. Innayan, Dr. E. S. Skeen, Frank H. Thoas, John M. Coons, Dr. W. E. Maness, A. H. Heavener.

An Early View of Ministers

Mr. Bailey served as pastor for a period of over five years, the first two years preaching every other Sunday and the remainder of the time every Sunday. The next pastor was Dr. W. F. Boyakin, of Jerseyville, who in many ways was an extraordinary person. He was much opposed to higher learning and at one time expressed himself as follows concerning it: "All this flourish of rumpets and waving of flags about years in college, then a long course in a ministerial institute I regard as outside the teachings of the New Testament, unwise, and is but the current to the port of what I call, for the want of a better word, an ecclesiastical ritualist, simmered down."

Dr. Boyakin was followed by A. A. Eingham of Michigan, whose wife was the daughter of Jacob Knapp, whose reputation as an evangelist was far-reaching. Mr. Knapp held a revival in the Baptist church here at one time, at the conclusion of which the church membership was increased by about one hundred. Mr. Pendleton was the next pastor his service of four and one half years resulting in a largely increased membership.

The Pastoral Record

In the seventy-five years of its existence the church has had a total of twenty-two pastors, an average of one pastor every three years and five months. S. A. Washington, C. C. Pierce and P. M. Mitchell were the next pastors, serving six, four and eight years respectively. Rev. T. H. Marsh filled the pulpit for the next eight years. All of these men were large contributors to the welfare of the community.

Services during the first four years were held in the court house, the congregation then having no building in which to meet. The first church building was erected in 1845 and was located just opposite where the Scott block now stands. The second building was erected in 1858,

WE have just received a big line of \$1.00 Monarch Shirts with soft French cuffs, all sizes. These Shirts are fast colors and we would advise to call early and get your size.

T. M. TOMLINSON

and the present one was bought of the Presbyterians in 1897.

The church has met and overcome many financial obstacles in the course of the years, and it is recorded that in February, 1860, the pews of the church were rented to enable the congregation to pay the pastor's salary. It is not known how long this plan was in effect, but in January, 1863, a committee of four were named "to fix the doors of the church edifice, procure wood, raise the bottom of the baptistry and secure money to pay the bills." In the year 1866 a Jacksonville church known as the Church of Christ was united with the First Baptist church, the two congregations being united into one.

The Sunday School Record

A Sunday school has been a part of the church all thru the years of its existence, this department of church activity having shown a steady growth. A mission was organized in 1887 and practically all of the time since then the church has maintained a mission. The average attendance at the mission Sunday school is now about seventy-five, and the organization has been a power for good in the community in which it is located.

In foreign missions the church has also shown an active interest. The first Woman's Foreign Missionary society was organized in 1875. Mrs. Ward Newman, Sr., serving as president. At least two missionaries from the membership of the church are at present working in the foreign field. Miss Susan Jones in Mexico and Miss Helen Rawlings in China.

Every department of the church is now in prosperous condition, gratifying progress having been made during the two years' pastorate of Rev. Percy W. Stephens, who on June 1 of this year severed his pastoral relations to take up advanced studies in Chicago.

CANDIDATES FOR CORNER

Edward N. Kitner and James M. Summers have announced their candidacies for the Democratic nomination for corner. Among other aspirants for the nomination are Coroner George W. Wright and Thomas McCarthy, and still others are considering making the race.

Send for The Cook's Book By Mrs. Janet McKenzie Hill It's FREE

Our instructions to the famous editor of the Boston Cooking School Magazine were: "Get up a book of recipes of the things people like best. Find the best way to make and bake each one. Then write it out so plainly that even an inexperienced housewife can't have a failure."

"The Cook's Book" was the result. Some of the 90 recipes were originated, many of them were improved upon, and all were personally tested by this best known authority on cooking in America, and she tells so clearly how she made everything that one cannot go astray.

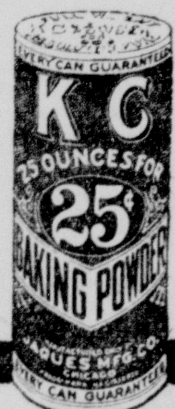

While some of the cakes and pastry are elaborate enough for any occasion, the recipes are all thoroughly practical and call for no expensive and unusual ingredients. In addition to telling how to make them, the book is beautifully illustrated in colors showing how to arrange and serve the dishes appetizingly.

More than half a million of "The Cook's Book" are now in use in American households. Yet the demand is constantly increasing. Many send for two or three at a time to give to friends or young housekeepers. Don't depend on borrowing one from a neighbor—have one of your own.

How to Get "The Cook's Book"

In every 25c. can of K C Baking Powder is packed a colored certificate. Send us one of these certificates (paste it on a postal card if you like) with your name and address plainly written, and "The Cook's Book" will be mailed free of charge. Only one book for each certificate.

HISTORY OF JACKSONVILLE WATER COMPANY IS TOLD

Corporation Lost Vast Sum For Investors — Mr. Reisenman Offers Stand Pipe to City.

The wrath of the Jacksonville Water company invaded the council chamber at the regular meeting Monday morning when Joseph Reisenman appeared before the council with a proposition to purchase the company's stand pipe in reservoir park. Mr. Reisenman offered the stand pipe to the city for \$3,000 which is about half of the original cost. The matter was referred to Commissioner Vasconcellos to investigate and report back to the council.

In making the proposition Mr. Reisenman told some heretofore unknown history in connection with the ill-fated river proposition. He told of the loss of money to investors who had taken stock in the concern in good faith. Among these stockholders was a man named Roland. Mr. Roland lost \$67,000 in the venture. "Now," said Mr. Reisenman, "he has given up his residence worth \$25,000 and he and his wife are living in the third floor of a flat. Mr. Roland is 82 years of age and is practically penniless. Mr. Reisenman also told of losses to others of his friends and said that the failure of the company was largely the fault of O. N. Gardner who had charge of the construction work.

Aside from this touch of human interest the meeting was mainly routine. Officers reports were read and received. Commissioner Vasconcellos reported that he had let the contract for removing the tower on the city hall to William McCullough for \$177.

The Proceedings

The regular meeting of the city council was held in the council chamber Monday morning, all members present except Commissioner Cox. The clerk called the roll and read the minutes of the last regular and special sessions which were approved.

The clerk read the following officers' reports:

The report of Charles B. Graft showed a balance in the general fund June 30, of \$498.94.

Chief of police George P. Davis reported a total of 24 arrests for June. Of these three were state cases and two city cases. Fines collected amounted to \$80.35.

The report of Dr. A. M. King showed a total of 36 deaths. From 5 to 20 years 1, 20 to 50 years, 13, over 50 years, 8. He also reported five cases of measles, one case of diphtheria and three cases of typhoid fever.

The report of W. H. Cobb, water superintendent, showed a total of \$2,825.53 collected as follows: water rent, \$2,682.03, meters, \$43. Taps \$33. Meter repairs \$12, connecting main at Snyder ice plant, \$63, junk \$59.

R. L. Pyatt city clerk reported receipts of \$139 thru his office and \$34.50 for Diamond Grove cemetery and \$2.70 for Jacksonville cemetery.

Harry Summers sexton of Diamond Grove cemetery reported nine interments for the month.

Miss Emma Weller reported the investigation of several cases which were being given attention. The reports were received and placed on file.

An ordinance providing for the changing of the name of North West street from Walnut to Oak street to Barton Place was given a second reading and adopted.

Joseph Reisenman and J. P. Brennan then made the proposition to the council to purchase the standpipe located in reservoir park. A blue print was presented and Mr. Reisenman stated that he had looked up the figures on the cost of building the standpipe and found that in round numbers it cost \$5,600. He offered it to the city for \$3,000.

The members of the council agreed that it would be desirable to purchase the standpipe. However, Mayor Rodgers said that the city was in such condition financially that it did not seem possible to do anything at this time. The mayor said that when the bond issue was asked that in the plans formulated it included the purchase of the standpipe and placing the west end of the city to Caldwell street on standpipe pressure and the remainder of the city on reservoir pressure.

Mr. Reisenman indicated that he would be willing to make suitable arrangements for the payment of the money. The matter was referred to Commissioner Vasconcellos to investigate and report back to the council.

W. H. Cocking was present and asked what further action the council intended to take relative to street oiling. It was the sense of the council that the matter had been referred to Commissioner Vasconcellos to take up with Mr. Cocking and that the council had nothing further to do with it.

There being no further business the council on motion adjourned.

ASK YOUR NEIGHBORS.

It used to be the custom—and may be now on remote farms—for the housewife to use her own knowledge, good sense and judgment in dealing with sickness in the family before sending for the doctor, unless in serious emergencies. After that, when there was no immediate danger she would talk with her neighbors, women who had had experience with sickness.

Any woman who suffers from ailments peculiar to her sex will do well to ask her neighbors. She should easily find one who has used Lydia E. Pinkham's Vegetable Compound. Just ask her about it!—Adv.

SPENT SUNDAY IN COUNTRY

Mr. and Mrs. George Deitrick, Mr. and Mrs. Daniel Deitrick and Miss Carrie Deitrick all of Concord and Mr. and Mrs. Matthew Miller and son of this city spent Sunday with Mrs. L. Fredlander and family northwest of the city.

CHILDREN MUST SECURE PERMITS FOR SUMMER EMPLOYMENT

Factory Inspector Explains Law Governing Subject of Child Labor—Provisions are Strict.

Oscar F. Nelson, chief state factory inspector, advises that all children leaving school for the summer vacation must secure working permits, before they accept employment.

"Since the public and private schools have closed" explains Mr. Nelson, "thousands of children are looking for some sort of employment in which they can earn a few dollars during the summer months. Many parents not versed in the requirements of the law hustle their children off to work and then find themselves in difficulty, when the factory inspector discovers that the child has no permit to work. The same is true of employers. They hire children, but fail to demand the working permit and subsequently experience difficulty, when the factory inspector visits their shop and calls for the permit of each child wage earner.

To avoid these difficulties I want to explain the requirements of our Child Labor Law. In the first place every child in order to take a position must be over fourteen years of age and must obtain an "Age and School Certificate," which is the working permit that authorizes the child to accept employment and the employer to hire a child. Without this permit an employer has no legal right to place a child to work.

In the cities thruout the state pupils of the public schools receive their permits from the superintendents of local public schools, and pupils of the Catholic and Protestant Parochial Schools obtain their permits from the principals or clergymen of their school.

"During the past week the rush for permits has swamped both the Public School issuing offices and the Catholic Parochial school issuing office. By following these directions parents will not be apt to take their child to the wrong issuing office. In all instances children must be accompanied by their parents.

"It is of utmost importance that employers understand, that when they hire a child the responsibility rests entirely with them. According to a decision of the United States Supreme Court, an employer hires a child at his peril. Any statement made by a child as to his age must be verified by the employer, if he wishes to avoid any difficulties with this law.

"The employer must keep the permits of all children between 14 and 16 years of age on file and open for inspection at all times and must keep posted the names and addresses of all children on the wall of his office or shop.

"A child must not be employed over 8 hours per day or 48 hours per week and the 8 hours of a day must be performed between 7 a. m. and 7 p. m.

"Section 11 of the Child Labor Law must be impressed in particular upon employers, for the reason that this section prohibits the employment of children under 16 years of age at or about dangerous machinery. This department considers any occupation for a child around power driven machinery dangerous and has made a ruling to this effect in conformity with this section of the law."

Any further information with reference to the "Child Labor Law" may be obtained by writing to the Chief State Factory Inspector, 608 S. Dearborn St., or by calling Harrison 3112 on the telephone.

NON RESIDENT NOTICE.

State of Illinois,)
County of Morgan,) ss.

In the County Court thereof to be August Term, A. D. 1916.

Henry S. Rayborn, as executor of the last will and testament of Emeline Rayborn, Deceased, petitioner, against Louis A. Rayborn, Lucinda E. Williams, Susan E. Cundiff and Walter Jenkins, Defendants. Petition for an order to sell real estate to pay debts.

Notice is hereby given to Louis A. Rayborn, that the above named petitioner heretofore filed his petition in the above entitled cause against the above named defendants in the County Court of Morgan County, in the State of Illinois, and that summons issued out of the office of the clerk of said court, returnable on the first Monday of August, A. D. 1916, at the courthouse in the City of Jacksonville, in Morgan County, in the State of Illinois, which suit is still pending and undetermined. That said suit is for the purpose of obtaining an order of said court, directing the petitioner to sell the real estate described in the petition, and described as follows, to wit: Part of Block Seven (7) in the Town of Concord, described as follows: beginning at a point one hundred (100) feet east of the south west corner of said Block Seven (7), and running thence north forty (40) feet, thence east ninety and one half (90 1/2) feet, thence south forty (40) feet and thence west ninety and one half (90 1/2) feet to the place of beginning, situated in the County of Morgan and State of Illinois, to pay the debts of said decedent.

CUBS DOWN PIRATES IN EIGHTH INNING

RALLY NETS CHICAGOANS THREE RUNS.

Pirates Make One Run in First Inning and Another in Seventh—Brooklyn Easily Wins First of Series With New York.

Pittsburgh, July 3.—Chicago defeated Pittsburgh here today by a score of 3 to 2, the visitors winning in the eighth inning when hits by Knabe, Williams and Zimmerman, a base on balls to Hendrix and Hinchman's wild throw scored three runs. The Pirates made one run in the first inning on Hinchman's triple after Carey had bunted safely and another in the seventh on two hits, a base on balls and an error.

Score by Innings:
Chicago 000 000 030—3
Pittsburgh 100 000 100—2

Summary.
Two base hits—Zimmerman. Three base hits—Mulligan, Hinchman. Stolen base—Baird. Sacrifice hits—Flack, Williams, O'Brien, Wilson. Double plays—Wilson to Wagner. Left on bases—Chicago, 6; Pittsburgh, 13. First base on errors—Pittsburgh, 1. First base on balls—Off Seaton, 3; off Packard, 3; off Cooper, 2; off Harmon, 1. Hits and earned runs—Off Seaton, 4 hits and 2 runs in 7 innings; off Packard, 2 and 0 in 2; off Cooper, 7 hits and 2 runs in 8; off Harmon, 0 hits and no runs in 1. Hit by pitcher—By Seaton, (Baird); by Packard, (Wagner). Struckout—By Seaton, 3; by Packard, 3; by Cooper, 7; by Harmon, 1. Wild pitch—Seaton. Umpires—Klem and Emslie. Time—2:07.

Brooklyn, 6; New York, 1.
Brooklyn, July 3.—Brooklyn easily won its first game of the series with New York today. Robinson's team hit Anderson hard and he was poorly supported, especially in the fifth inning when Brooklyn bunched a double and a single with three errors by the Giants for three runs. Jack Coombs pitched a remarkable game for Brooklyn. After Burns and Kauff, the first two batters to face him, made singles, no other Giant made a hit until Burns doubled to start the ninth but he was caught off second when Kauff lined to Coombs. Score: R. H. E.
Brooklyn 010 230 000—6 9 0
New York 100 000 000—1 3 3
Batteries—Coombs and Miller; Anderson, Schupp and Rariden.

Boston, 5; Philadelphia, 1.
Boston, July 3.—The Boston Nationals defeated Philadelphia 5 to 1 today in a game called at the end of the sixth inning because of rain. The victory moves the locals into second place. Alexander was batted hard, Konetchy's single sending in two runs in the first inning, while a hit batsman, a sacrifice hit and errors by Killifer, two singles and a passed ball accounted for three more tallies in the sixth inning. Score: R. H. E.
Philadelphia 001 000—1 5 3
Boston 200 003—5 8 2
Batteries—Alexander and Killifer; Reulbach and Goddy.

EXECUTOR'S NOTICE.

Estate of Matilda V. Hook, Deceased.
The undersigned, having been appointed Executor of the last Will and Testament of Matilda V. Hook, late of the county of Morgan and State of Illinois, deceased, hereby gives notice that he will appear before the County Court of Morgan County at the Court House in Jacksonville, at the September Term, on the first Monday in September next, at which time all persons having claims against said estate are notified and requested to attend for the purpose of having the same adjusted.

All parties indebted to said estate are requested to make immediate payment to the undersigned.

Dated this 3rd day of July, A. D. 1916.

James H. Danskin, Executor.

WORK COMMENCED ON TOWER.

William McCullough commenced the removal of the tower on the city hall Monday morning. E. E. Wells who has been rebuilding the east wall has nearly completed his contract.

EXCITING TEN INNING GAME AT FRANKLIN

Waverly Team Wins by a Score of 6 to 4.

Waverly defeated Franklin in a ten inning game at Franklin Sunday by a score of 6 to 4. Franklin had had the game won until the ninth when Norton of Waverly made a home run tying the score. In the tenth Waverly made two more runs and blanked Franklin in her half. The game was a hard fought one and furnished lots of excitement for the spectators. The score:

SCHAEFER SEALS PLAY TODAY.

A feature of the celebration today will be the ball game between the Schaefer Seals of Springfield and the Jacksonville team at Nichols park. The Seals always have a good team and are coming today to try and get revenge for their defeat by the locals several weeks ago. The game will be called at 3:30 o'clock. The lineup follows:

Seals—Kley, 2b; Lauchner, cf; Rebo, rf; McCue, 1b; Conroy, 3b; Lumsden, lf; Hackett, ss; Ford, c; Hartman, p; Hal, p.
Jacksonville—Denny, 2b; Fernandes, ss; DeFrates, 3b; Clark, c; Wheeler, 1b; McCollister, cf; Christopher, lf; Cannon or Woodman, rf; White or Fanning, p.

PROBATE COURT.

In the estate of Minerva J. Hairgrove the petition to admit the will to probate was allowed.

In the conservatorship of Catherine Swain the hearing was continued to 10:30 July 10, on motion of J. Marshall Miller.

In the conservatorship of James Longley, J. A. Longley was appointed conservator and bond fixed at \$800.

In the state of Matilda B. Hook, letters testamentary were ordered to issue to J. H. Danskin.

LICENSED TO MARRY.
Archie E. Thomas, Oakford; Maude Gison, Astoria.

CHICAGO CONTINUES ITS WINNING STREAK

DEFEAT BROWNS IN SEVENTH BY 3 TO 2 SCORE.

Shalk Singles and Scores When Wellman Throws Wolfgang's Bunt Toward First Base, Where No One Was Stationed to Receive It.

Chicago, July 3.—Chicago continued its winning streak today and won from St. Louis 3 to 2. Chicago won out in the seventh inning when Shalk singled and scored when Wellman threw Wolfgang's bunt toward first base, where no one was stationed to receive the throw. The visitors had an opportunity to win in the eighth inning when they had the bases filled and one out, but Pratt got in front of Marsans' grounder and was out while the other base runners had to return to their bases.

Chicago 101 000 10*—3

Summary.
Two base hits—Pratt, Weaver. Sacrifice hits—Weaver, E. Collins, Felsch, Wolfgang. Double play—Fournier to Wolfgang. Left on bases—St. Louis, 9; Chicago, 5. First base on errors—St. Louis, 5; Chicago, 3. Bases on balls—Off Wellman, 1; off Wolfgang, 2. Hits and earned runs—Off Wellman 7 and 1 in 8; off Wolfgang, 8 and 1 in 9. Hit by pitcher—By Wellman, Jackson. Struckout—By Wellman, 2; Wolfgang, 2. Umpires—Evans and Nallin. Time 1:40.

Boston, 6; Philadelphia, 4.
Philadelphia, July 3.—Altho Philadelphia hit the ball hard and knocked Shore off the rubber in the ninth inning, Boston won today's game 6 to 4. The visitors made good use of their hits off Nabors who was taken out for a pinch hitter in the eighth. Sheehan yielded two runs in the ninth on a base on balls, two singles and an error.
Score: R. H. E.
Boston 100 210 002—6 11 1
Philadelphia 002 000 011—4 12 3
Batteries—Shore, Mays and Cady; Nabors, Sheehan and Meyer.

Cleveland, 6; Detroit, 4.
Cleveland, O., July 3.—Daus' wildness early in the game and his ineffectiveness in the fifth, combined with two costly errors gave Cleveland a six to four victory over Detroit today, despite the fact that the visitors were outbatted 11 to 6. Ty Cobb received notice he had been suspended for three days for throwing a bat into the grandstand at Chicago Sunday.
Score: R. H. E.
Detroit 010 100 002—4 6 2
Cleveland 200 030 10*—6 11 2
Batteries—Daus, Erickson and Stanage; Lowdermilk and O'Neill.

New York, 1; Washington, 0.
Washington, July 3.—New York beat Washington 1 to 0 today in an eleven inning game. Both teams had numerous opportunities to score but neither Caldwell nor Johnson could be hit opportunely. In the eleventh inning Nunamaker reached first on a drooping fly to short right field only to be forced at second by Caldwell. The latter went to second when Sawyer threw wide to first on Gilhooley's bouncer. High beat out a bunt to Shanks, filling the bases, and Hartzell, batting for Peckinpah, lifted a short fly to left on which Caldwell scored.
Score: R. H. E.
New York 000 000 000 01—1 6 0
Washington 000 000 000—0 3 1
Batteries—Caldwell and Nunamaker; Johnson and Almsmith.

THE FOURTH AT THE POSTOFFICE
Tuesday the 4th of July will be observed at the Postoffice as follows:
There will be the regular morning collection and delivery in the residence district.
There will be one delivery in the business district at 8:30 a. m., and collections in the business district at 4 p. m., and 6 p. m.
There will be no delivery on the rural routes. Patrons may call at the rear door and receive their mail from the rural carriers.
The general delivery and registry windows will be open from 8 a. m. to 10 a. m.
Postal supplies may be purchased at the sub station.
Outgoing mail will be dispatched as usual.
R. I. Dunlap, Postmaster.

Judge Carl Epler of Quincy was a business visitor in Jacksonville Monday and a guest at the home of his sister, Miss Effie Epler.

PEKIN A. B. C. TEAM VERY EASY FOR LOCAL PLAYERS

Score in Sunday's Game Was 15 to 1—Just Comedy of Errors.

The less said of the game between Jacksonville and the Pekin A. B. C. team Sunday afternoon the better. The management offers an apology to the fans for booking the team. The team had been well recommended and was really the only poor team that has appeared here this season.

The visitors were about as bad as could be imagined. There was not a man on the team who seemed to know much about baseball and the pitching was awful. Albright started the game but gave way to Howells. Neither of them had anything and the locals hit the ball all over the lot. Clark and McCollister each got four hits during the afternoon. The calls were in fine form and it was unfortunate that a good team was not booked. White pitched an excellent game until the last few innings when he merely lobbed the ball over the plate. Even then the visitors had a hard time hitting it safely. The final score was 15 to 1 in favor of the locals which is about all there is to be said about the comedy.

Today the locals hook up with the Schafer Seals. The Seals always have a good team and always play good ball. They will be stronger than on their former visit and fans will see a good contest. The score: Pekin A. B. C. AB. R. H. P. A. E.
W Smith 2b 4 0 0 1 0 2
Calahan 3b 4 0 2 0 2 0

National HIGHWAY

\$1990 Now

\$1990 Now

The Price Increases Next Month

THIS is the last month that you can get a National Twelve for \$1,990. Next month it will cost you more.

In spite of the fact that the National factory is now one of the largest producers of high-grade cars—and in spite of the fact that they delivered this year more than three times as many cars as during any previous year, it is impossible to continue to sell the National Twelve for \$1,990.

Nor can National quality be reduced even the slightest degree. For, did not hundreds of National Twelve owners buy their cars on National reputation alone?

National Twelves are in daily service in every State in the Union.

These National Highway Twelve owners will tell you that they never thought it would be possible for such marked improvements to be made.

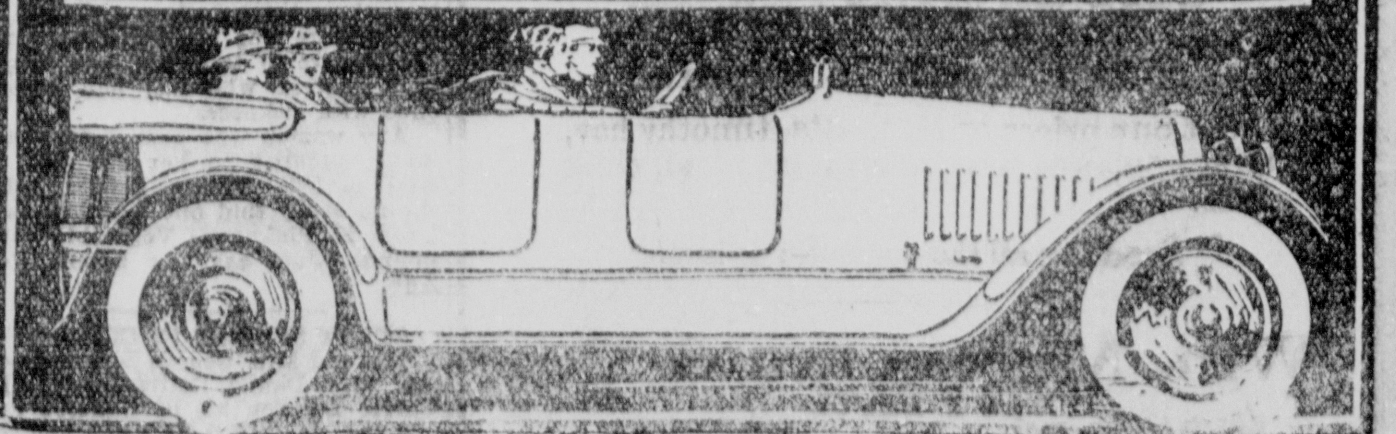

They bought "Highway" Twelves solely on the strength of the National name—when you buy your Twelve, you get not only this guarantee of one of the oldest, most reliable, most successful factories, but in addition you may know that National Twelves are rendering service, pride and pleasure to many of the most discriminating motorists.

National designs and builds its own Twelve-cylinder motors. Soon, motor or parts makers will be turning out twelve-cylinder engines by the tens of thousands, engines patterned after the Twelve pioneers.

Eventually you won't think of anything but the Twelve—but why wait? Why not have the most up-to-date and most efficient car today?

Cet acquainted with the National Highway Twelve. You're cheating yourself every day you put it off. It is America's best looking car.

STOCK TRADING INSIGNIFICANT AND UNIMPORTANT TO LAST DEGREE

Dealings are Light and Contracted
at the Outset—Become Increasingly
Dull at Midday and Lapse into
Stagnation Later.

New York, July 3.—Coming between two holidays today's market was insignificant and unimportant to the last degree. Dealings were light and contracted at the outset, became increasingly dull at midday and lapsed into stagnation later, the total turnover barely approximating 250,000 shares.

Declines of 2 to 4 points were recorded during the forenoon by various speculative issues, the weakest features being United States Industrial Alcohol, Crucible Steel, Baldwin Locomotive, and the Motors. Metal shares also were depressed by the additional break in copper and allied products in the London market.

Mexicans made pronounced recovery. Bulls but variably better.

The market was weakest in the final hour, improvement being due to rumors that an understanding involving the early removal of our forces from Mexico had been reached.

Bonds were firm. United States coupon and registered 2s and registered 4s, as well as Panama 2s declined 1/2 per cent on call with sales of U. S. 3s coupons at an advance of 1/4 percent.

NEW YORK STOCK LIST.

Maxwell

THE SAME CAR FOR LESS MONEY

BEAR in mind that the Maxwell car has not been changed.

It is standardized. It will not be changed except in minor respects—where we see opportunities from time to time to make refinements and additional improvements.

The new price of \$595 is only made possible by our greatly increased production and the fact that we specialize in only one automobile.

Every Maxwell car is identically the same as every other Maxwell car.

Last year the Maxwell car represented a big value. Many thousands of satisfied Maxwell owners are the evidence of that.

But this year—at the reduced price of \$595—the Maxwell stands out as the one big automobile value of all time.

Nothing like it has ever been offered for the money.

Just consider, complete electrical equipment for starting and lighting; speedometer; demountable rims; one-man top; rain-vision windshield;—and every other device for the comfort and convenience of the owner.

Every thing that the expensive cars have. And good looks, comfort and economy of operation—that some of the others haven't.

There has been a nation-wide demand for Maxwell cars at the former price; there will be an overwhelming demand for these cars at the new price of \$595.

And this proves that the American public has admitted and verified our unqualified claim that the

Maxwell Motor Car is the Big, Outstanding Motor Car Value in the Country Today.

Maxwell

Motor Company • Detroit, Mich.

WHAT THE MAXWELL PRICE INCLUDES

Long-stroke, high speed, four-cylinder motor; 5 to 50 miles on high gear; 20 to 25 miles to the gallon of gasoline (average).

Irreversible steering gear; automatic motor lubrication by splash and pump; 500 to 1,000 miles per gallon of oil.

Thermo-siphon cooling.

A running-in oil clutch, so smooth as to make the driving of a novice as free from gear-clashing and from sudden jerks as that of a seasoned driver.

Tall, narrow, racing type Maxwell-made radiator.

Maxwell-made axles—1-beam front and semi-floating rear; highest quality heat-treated alloyed steel.

Gasoline tank in cowl; short, accessible gas line to carburetor.

Maxwell-made stream-line body, well finished in every detail. Deep, comfortable upholstery.

30 x 3 1/2 tires all around, non-skid on rear; average life 8,000 to 10,000 miles. Demountable rims.

Tire carrier at rear, with extra rim.

Substantial, Maxwell-made crowned fenders and linoleum-covered running boards.

Electric starter, electric lights, electric horn.

High-Tension Magneto, an independent source of ignition.

One-man Top with quick-adjustable curtains—storm proof.

Rain-vision, adjustable, ventilating windshield. High grade speedometer.

The Maxwell Touring Car is a full five-passenger car. Every Maxwell model seats comfortably the number of passengers which it is rated to carry.

Compare these Maxwell features with those of cars selling at higher prices.

CLEANSE THE BLOOD BANISH RHEUMATISM

Rheumatism Due to Bad Blood

Thousands have been made well. People in the poorest health, suffering from Rheumatism, with whom pain was constant. Who believed that their vitality was sapped beyond repair. It was proven to them that the cause of their trouble was the blood; that Urlic Acid, the most faithful ally of Rheumatism, had gripped them. The poison in the blood had sapped its strength. The weakened blood had allowed poison and impurities to accumulate, and all energy was gone. They felt "poorly," were listless, pain was ever present, with poor digestion and dyspepsia. They tried S. S. S.—nature's blood tonic. They gave up drugs. This compound of nature's remedies of roots and herbs did what drugs failed to do. It literally washed the blood free from poison, and with the flow of pure blood came back health, strength, vigor and happiness. Get S. S. S. from your druggist. Insist upon S. S. S. If you are a long standing case, write for medical advice to Swift Specific Co., Atlanta, Ga., but begin taking S. S. S. at once.

CHANGE IN LAW MAKES PROBLEM AT LINCOLN

State School There Has No Facilities to Care for Criminal Feeble Minded.

Under a new law offenders against state laws who have been found feeble minded and not responsible for their crimes can be sent to Lincoln. Thus there have come to the institution a great many inmates of an entirely different class from those previously cared for and a difficult situation has accordingly been created at the institution. During the first six months under the new law forty to fifty boys who previously would have been sent to Joliet or Pontiac were sent to Lincoln.

The institution there has no jail or building of that class especially needed for the care of such inmates and as a result there have been a good many escapes and some damage to the property at the institution. The state charities commission, therefore, in its annual report is seeking to impress upon the legislature the need for more capacity at the Lincoln institution for colonization under strict supervision of this new class of offenders and further provisions for the care of feeble minded women of immoral habits. Under present conditions it is necessary for these older offenders to be associated with mere children.

A DISTINGUISHED VISITOR

Judge J. Otis Humphrey and family spent Sunday the guests of William D. Henry of Woodson and greatly enjoyed the day. Mr. Henry says that the Judge is a native of Woodson, having been born on the Bedford Brown place and the two had a delightful time talking over the long ago. Mr. Henry feels pardonably proud of the distinguished son of the Woodson neighborhood and greatly enjoyed having him as a guest.

SCIENCE—INDUSTRY.

Graphite a Wartime Necessity.

Because of its use in the manufacture of crucibles for melting metals and for foundry facings graphite is a mineral resource of vital importance and in great demand in time of war. The extraordinary activity both in this country and abroad in the manufacture of crucibles has greatly stimulated the graphite industry. Most of the established graphite mines in the eastern states notably increased their output in 1915, and in the Ashland district, Alabama, a number of new mines have recently been opened, most of which have not yet reached the producing stage. Early in 1916 active development work was also begun on a graphite deposit of much promise in the Llano region, in Texas.

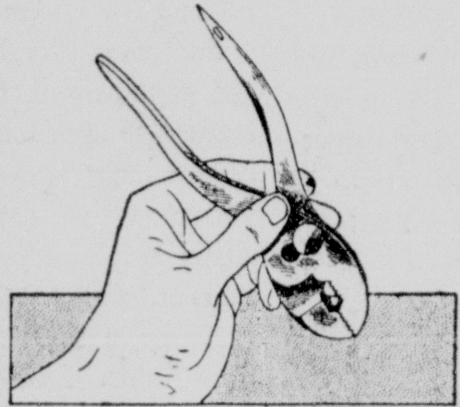

The full effect of the increased demands will not be shown until these new concerns begin to market their product, but even in 1915 the output of natural crystalline graphite showed an increase of about 1,850,000 pounds over that for 1914.—United States Geological Survey.

Great Petroleum Field.

Natural gas has been known near Shreveport, La., for more than twenty-five years, but oil was discovered here only in 1904, when the first successful well was drilled in what is now known as the Caddo oil and gas field, says the United States geological survey. This field is chiefly in Caddo parish, in the northwest corner of Louisiana, but extends westward a short distance into Marion and Harrison counties, Tex. In 1906 the production of the field was only 3,358 barrels, which is less than the reported initial daily production of some of the more recent wells. From this time the output increased until 1913 when the maximum yearly production of 9,628,177 barrels was made. Including the production of 1914 the Caddo field has yielded over 38,000,000 barrels of oil and a large but unknown amount of gas. Although this field may have reached its maximum production, it will not be exhausted for many years.

Handy Tool For Workshop.

Having quite a number of belts to lace about the shop, I often found it necessary to use a beltawl and also a pair of pliers, writes a correspondent of Popular Mechanics. Having to lay one tool down to use the other is some-

BELT AWL ON PLIER HANDLE

times inconvenient, as they are apt to drop out of reach or to the floor if working on a high place. To make my pliers so that I would have both tools in one an awl was formed on the end of one of its handles, as shown in the illustration.

Potash In Utah.

Potash in large proportions is present in the brines and muds of the Salduro marsh, a sink in the Salt Lake desert, about sixty miles west of the southwest edge of Great Salt lake. From the clays underlying the salt body which covers the marsh the United States geological survey collected samples at depths of eight to twelve feet, in which the dissolved salts were found to contain from 2 to about 3½ per cent of potash, and 2½ per cent was found in the soluble salts at a depth of about four feet. According to analyses made by the survey, the brines and muds from the Salduro marsh contain considerable magnesium chloride as well as chlorides of potassium and sodium, and so are somewhat similar in composition to the deposits from which potash is manufactured in Germany.

Alaska's Mineral Production.

The value of the mineral production of Alaska in 1915 amounted to \$32,854,229—\$13,788,563 more than the value in 1914 and far more than that of any previous annual output during the thirty-six years that mining has been carried on in the territory. The collection of mineral statistics of Alaska for 1915, just completed by the United States geological survey, shows that the value of the gold produced during the year amounted to \$16,702,144, copper \$15,139,129 and silver \$543,393. Tin, lead, antimony, marble, gypsum and a small amount of petroleum and coal bring the total value of Alaska's mineral products to \$32,854,229.

Uses of Hair Sealins.

The skin of the young north Atlantic hair seal is extensively used in Newfoundland for the production of a most excellent boot for sealers, fishermen, lumbermen and sportsmen. The boots, which come to within an inch or two of the knee, are very durable and at the same time are both light in weight and waterproof. Sometimes the hair is left on and turned inside for warmth. Moccasins, gloves, mittens, tobacco pouches, purses, bags and similar articles are also made locally, and large quantities of the skins are exported to the United States, Canada, England and other countries.—Commerce Reports.

DENMARK ONCE A POWER.

When the Tiny Kingdom Conquered and Ruled Great Britain.

Among the little nations of Europe there is one that is seldom mentioned, except when some vessel contrives to thread its dangerous way through the Skagerrack and Kattegat. Then Denmark comes into the daily news. Did you know that Great Britain was once ruled from the capital of this tiny and remote kingdom?

It has been almost 900 years since the stalwart Canute completed the conquest of England, expelling both the Celtic and the Saxon rulers of the British Isles. When he had completed his conquest and soothed the feelings of his new subjects by marrying the widow of their former king he added Norway to his crown possessions. One of his successors ruled over the whole of the Scandinavian peninsula and a large section of what is now German and Russian territory, surrounding the Baltic sea.

Today Denmark dips one hand in the icy waters of the north and the other in the blue gulf stream, for she rules not only Iceland and Greenland, but Santa Cruz, St. Thomas and St. John, known as the Danish West Indies. From the earliest times, when Charlemagne established the buffer state, known as the Danish Mark, on his northern frontier, the Danes have been a powerful seafaring people, emerging from piracy into legitimate commerce.

When the old princely line died out a prince of Schleswig-Holstein was invited to the Danish throne, and in 1661 the clergy combined with the common people against the nobility and in behalf of the king. A constitution was not granted until the year 1866.—St. Louis Globe-Democrat.

THE KING'S COURIERS.

England's "Silver Greyhounds" Have Hard Work and Poor Pay.

The most exciting job that can be held in the United Kingdom is that of king's messenger. He is charged with the delicate and in war time dangerous duty of carrying important state papers in cases when it would be either unwise or impossible to use the telegraph or the postal service. During war the king's messenger has nearly as difficult a task as has the dispatch rider, who is actually at the front. He must be continually on the lookout for spies, and it is quite within the probabilities that the steamer on which he is traveling may be stopped by an enemy vessel and his valuable papers taken from him.

Owing to the fact that they wear a badge consisting of a silver greyhound surmounted by a crown, king's messengers are nicknamed "silver greyhounds," and indeed they often have to imitate that breed of dog in swiftness and sureness of scent. To qualify for a messengership many things are needed. The candidate must be a man of first rate education, of excellent family and a good linguist. Considering the qualifications required, the salaries of the "silver greyhounds" are by no means large. The foreign service messengers receive remuneration ranging from \$1,250 to \$2,000 a year, while those employed on home service get from \$650 to \$1,225 a year.—Philadelphia Ledger.

A Callous Letter Carrier.

A woman from up state, who recently returned from a visit to friends in Brooklyn, remarked:

"I'm glad to get back home among my own kin and friends, where people ain't too busy or too unfeeling or too stuck up to take some interest in one another."

"Now, there's them postoffice folks down in Brooklyn! I found 'em actually hard hearted. Would you believe it, the man that brings round the letters to Mary's he's so queer and standoffish that when he handed me my husband's postal card telling me how mother had felt and broke her arm, he never so much as opened his lips to give me one word of sympathy! No, sir, not even enough to say, 'Too bad!'—Exchange.

Taking No Chances.

"I have called," said the complacent visitor to the office of the merchant prince, "to obtain a statement of your assets and liabilities."

"Which of the mercantile agencies do you represent?"

"Neither. I am considering making an application for your daughter's hand, and it has always been my rule to be sure I'm right before I go ahead."—Richmond Times-Dispatch.

Long Winded Discussion.

"Pa, what is meant by filibustering?" "Talking against time, my son." "Do you ever filibuster, pa?" "No, my boy. With the exception of that imposed by physical exhaustion, there is no limit to the debates in this particular house."—Birmingham Age-Herald.

Spiteful.

"Why do you hate him?" "He has been knocking me to the girl I go with." "What did he tell her?" "What my salary is."—Houston Post.

Out to Be In.

Never be in your place of business when a person wants to borrow money of you, because if you are in you will be out, but if you are out you will be in.—London Answers.

Extremely Careful.

"I want a careful chauffeur, one who takes no chances." "That's me, sir. I require references or salary in advance."—Judge.

The jest loses its point when he who makes it is the first to laugh.—Schiller.

Every Woman Who Cooks in Hot Weather is Entitled to

The Best Gas Range

If it was for one day only you might say any old range would do, but with the long hot days ahead of us, multiplied by hotter hours of cooking and baking, the cook surely should have the best stove.

July 5th, 6th, 7th and 8th

we will demonstrate why the BEST RANGE IS THE BEST, and if the man of the house is not interested in giving you a comfortable and easy gas range to operate, then bring him along and we will show him how to save money in gas bills.

Every woman in this town and territory is cordially invited and the men too, even though you are outside the gas limits or in the country. Come anyhow and see the store and also the wonderful line of oil and gasoline stoves and ovens, for while we are specializing on gas ranges we are not overlooking other stoves.

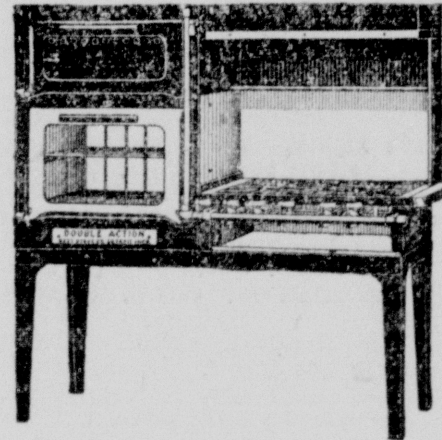

Why the "Best"

It has an oven that uses the heat twice.

Requires only 2 rows of fire to heat the oven, instead of 3 or 4 rows.

The oven is lined with aluminum fused metal which will not rust.

Has a broiling pan that will never catch on fire.

Is the Best

Has a separate oven and broiler burner.

Has an enameled body which can be kept clean with a damp cloth.

The oven burner is in plain view when the oven door is closed.

The glass in the door is protected on the inside by a metal rack.

ENTERTAINED BROOKLYN CHURCH OFFICERS.

The Brooklyn Church Board met Monday evening at the church and went over the entire finances of the church. They included the Sunday school and all departments and found the entire system to be in good condition. After the business had been transacted the board was invited to the parsonage where they were entertained by Rev. W. W. Theobald and wife. Delicious refreshments were served and a delightful social hour was enjoyed by all.

Miss Lucile Bain of Chicago is visiting at the home of Patrick Meaney on North East street.

ALUMINUM FROM GREENLAND. Cryolite, a source of aluminum and used in making soda and glass, is not produced in the United States, the entire supply used in this country being imported from Ivigtut, an Eskimo hamlet on the southern coast of Greenland.

How to Make Delectable Pies For the Winter Season. Cook three pounds of lean beef with a pound of suet until the meat is tender. Cool in the water, then remove the meat and chop fine, adding twice the amount of finely chopped apples. The apples should be washed, quartered and cored before chopping. The skins may be left on if chopped first. Add the suet which was cooked with the meat and which will rise and form a cake of fat on the top of the liquid. It should be chopped, and the water in which the meat was cooked should be placed on the stove and allowed to cook away to about a cupful of stock, which should be added to the chopped meat, apples and suet.

Now add two pounds of brown sugar, three cupfuls of molasses, three pints of cider, three pounds of seeded raisins, two pounds of currants, half a pound of very finely chopped citron, half a cupful of cider vinegar, nutmeg, ginger, cloves, cinnamon and spice, with salt and pepper. Add the pieces slowly in teaspoonful only at first, tasting frequently. The seasoning is the most important point in mincemeat. Much depends on it, and it requires judgment to know what is lacking and just how much to add. If desired richer add orange and lemon juice with chopped quince preserve, also the sirup from the preserves with this addition. The combination is delicious and as rich as one would care to eat.

How to Test Linen and Cotton if You Can't Tell the Difference. If you are not sure that your merchant is reliable when buying table linen take home a sample and wash it hard and then see when it is ironed dry, how much of its fine gloss and smooth, satiny finish remain. Very often this is only a dressing and comes out in the wash.

To test for cotton in your linen take a thread running in each direction, pull them apart and when they break notice the ends. If the fibers curl up and are fuzzy it is cotton thread; if they are lustrous and lie straight and parallel you have linen. As in the case of cotton and wool mixtures, it holds true of linen and cotton that a mixture made of a good grade of both is preferable to an all linen at the same price. The latter would have to be of an inferior grade, probably overbleached and thereby rotted and sure to wear poorly.

Make a fairly hot suds with a good quality of white soap. Immerse the piece, allow it to soak for half an hour, then swish and put it around. Squeeze out as much moisture as possible and repeat the process. If it does not look perfectly clean repeat the process.

Rinse it through clean, warm water until all traces of soap are gone, squeeze it, place it on a towel, twist the towel tight to get out more water, put a clean towel in a large agate pan or a china bowl, place the article lightly upon it, put all in a warm oven and leave the door open. The washed piece should look almost like new.

How to Renovate the Brushes in Your Carpet Sweeper. The sweeper brush bristles become soft from long use and do not sweep up pieces as well as when stiff. Put a little common baking soda in some hot water, take the brush out of the sweeper, dip it up and down in this; let it dry in the sun and it will be like new. Hair bristles or any brush can be treated in the same way with the best results.

Economy Hints

A penny saved is a penny earned.—Benjamin Franklin.

THE ingredients for stock—raw or cooked meat, cut into small pieces—are put into a pot, covered with cold water and set over a slow fire to simmer for two or three hours. The water should never reach the boiling point, for if meat is cooked at too great a heat the juices will not be extracted. Salt should be added when the water reaches the simmering point. All scum must be carefully removed as soon as it rises. If the scum is removed two or three times the stock should be clear and clean.

Vegetables to flavor should be added at the last hour of cooking. They give the stock a stale taste if overcooked. When the stock is done pour it through a wire strainer into a bowl. When it is cold remove all the fat that has arisen to the surface, and the stock will be ready for ordinary use. All stock, whether it is to be used for soups or gravies, should possess food value. A little good rich stock is of greater value than a quantity of poor stock. A good quality of stock is especially essential in making soups. If your stock seems thin and poor it should be enriched by adding a little milk, butter, meat extract or an egg.

An excellent water pot or casserole with a cover makes the best pot for stock and is easy to keep clean. A stock pot should be thoroughly cleaned after each time it is used, and the stock should never be allowed to remain in it overnight.

MINCEMEAT.

How to Make Delectable Pies For the Winter Season.

Cook three pounds of lean beef with a pound of suet until the meat is tender. Cool in the water, then remove the meat and chop fine, adding twice the amount of finely chopped apples. The apples should be washed, quartered and cored before chopping. The skins may be left on if chopped first. Add the suet which was cooked with the meat and which will rise and form a cake of fat on the top of the liquid. It should be chopped, and the water in which the meat was cooked should be placed on the stove and allowed to cook away to about a cupful of stock, which should be added to the chopped meat, apples and suet.

Now add two pounds of brown sugar, three cupfuls of molasses, three pints of cider, three pounds of seeded raisins, two pounds of currants, half a pound of very finely chopped citron, half a cupful of cider vinegar, nutmeg, ginger, cloves, cinnamon and spice, with salt and pepper. Add the pieces slowly in teaspoonful only at first, tasting frequently. The seasoning is the most important point in mincemeat. Much depends on it, and it requires judgment to know what is lacking and just how much to add. If desired richer add orange and lemon juice with chopped quince preserve, also the sirup from the preserves with this addition. The combination is delicious and as rich as one would care to eat.

EUREKA COLLEGE GLEE CLUB GAVE FINE PROGRAM

Appeared in Christian Churches Here And At Lynnville—Took Part in Lynnville Service.

The Eureka college glee club, which includes E. E. Higdon, tenor and reader, Miss Helen Whitfield, soprano, Miss Lucille Stroud, contralto and mandolin, T. W. Hawes, baritone and Miss Carlock, pianist, appeared at Central Christian church Sunday evening. Mr. O. L. Lehman, field secretary of Eureka college, accompanies the club and made an address Sunday night at Central Christian church in connection with the program given by the club. The organization also appeared at Lynnville Christian church Sunday afternoon and the program was similar to the one given at Central Christian church Sunday night. Mr. Lehman referred in both addresses to the excellent work that Eureka college has done. The institution was founded by endowment sixty-one years ago and the field of usefulness has increased annually since.

At the Lynnville church following the regular morning service a basket dinner was enjoyed by the members of the church and their friends. In the afternoon the service was held at which members of the club and Mr. Lehman took part. There were a number of visitors from Jacksonville who visited the church especially in the interest of the every member campaign. The Jacksonville visitors were Rev. M. L. Pontius and wife, Mr. and Mrs. C. L. Mathis, Mr. and Mrs. Frank Byrnes, Mr. and Mrs. George T. Douglas, Mr. and Mrs. C. L. DePew, Mr. and Mrs. Charles B. Graff, Mr. and Mrs. H. C. Clement, A. C. Rice, C. F. Ehrlich, George Rhea, G. B. Andre and Edgar E. Crabtree. All of these men were called upon for brief speeches and their remarks added very materially to the interest of the occasion.

This was the program at Central Christian church:
Sextet from Lucia Arranged Sweet and Low
Quartet
Violin solo—Romance Svendsen
Wilbur Hawes
Vocal solo—Invictus Mahalia
Requiem Homer
E. E. Higdon
Barcarole, from Tales of Hoffman Misses Whitfield and Stroud
Talk by L. O. Lehman.
"The King of Love My Shepherd Is" "My Heavenly Home" Quartet

Talks on Phases of College Life at Eureka—Misses Carlock, Whitfield, and Stroud.
Solo—Villanelle Del'Acqua
Miss Helen Whitfield
Talks on Phases of College Life at Eureka—Mr. Higdon and Mr. Hawes
Solo—"What the Chimney Sang" Griswold
Miss Lucille Stroud
Announcements.
Group of College Songs Quartet

GREENE COUNTY

RESIDENT DEAD
David Thompson, one of the pioneer residents of Greene county died at his home in Roodhouse Sunday night at 10 o'clock, aged 84 years, 8 months and 2 days. Mr. Thompson suffered a stroke of paralysis last fall and has been in poor health ever since. About three months ago he began suffering from dropsy and heart trouble and this was the cause of death.

Deceased was one of the early residents of Greene county. His father lived in a house on the site of what is now the city of Roodhouse and Mr. Thompson was born there. He followed the occupation of farming and was an extensive land owner in Greene county. Until last fall he had resided on a farm near Roodhouse for over 40 years.

Mr. Thompson was united in marriage Oct. 3, 1859 to Miss Jane Cole, a resident of Schuyler county. His wife died 32 years ago. To this union 12 children were born. Three died in infancy and one passed away six years ago. Those surviving are: Andrew, Alonzo and Oscar Thompson of Roodhouse, Walter and Robert Thompson of Ft. Stockton, Texas, J. E. Thompson of Murrayville, Mrs. William Weller of Carlisle and Mrs. Sarah Conley who has lived with her father and cared for him for the past twenty years.

Mr. Thompson was for many years a member of the Baptist church and was always identified with the forward work of the community in which he lived.

Funeral services will be held from the Baptist church in Barrow this afternoon at 2 o'clock.

James L. McDonald and family and B. F. Lane of the Bargain Book Store enjoyed Sunday at the home of Mr. Lane's mother at Riggsston.

Miss Ruth Beerup of St. Louis is visiting her grandparents, Mr. and Mrs. C. L. Beerup and Mr. and Mrs. Mm. Rees.

The Outing Club of Franklin will celebrate today at the club park. The members and their guests will take their lunches to the park and a picnic will be enjoyed. Many of them expect to come to Jacksonville in the evening to see the display of fireworks.

Mr. and Mrs. J. H. Dunlap and daughter Lorraine and Mr. and Mrs. Arthur Topping and sons Arthur Lester and Robert James, of St. Louis, are in the city for a visit with their aunt, Mrs. Fred Rusteneyer. They made the trip via automobile.

Knew There Were Fairies.

The Woman Who Saw has a little friend with wide open eyes and long brown curls. Sometimes when the Woman Who Saw is at her little friend's house and the other members of the family happen to be out of the room there is a chance for delightful little conferences. The Woman Who Saw always tries to make such opportunities, and she made one on her last visit.

Her little wild-eyed friend had been watching for it too. In a flash she lighted upon the arm of the sofa and whispered into the ear of the woman: "Do you know, there are fairies! Because"—excitedly—"last night I made a little swing for them on my desk, such a wee little swing, out of the thinnest pieces of sticks and cobwebs. And—this morning the swing was all broken! And that shows that the fairies swung in it last night, doesn't it?"

The Woman Who Saw longed suddenly for that volume of Hans Christian Andersen and the window looking out upon the orchard—long ago.—New York Evening Sun.

His Palindrome.

A tourist traveling with a party of friends was seized with a sudden illness and was compelled to remain for some hours in a hotel. He insisted that the others must go out and enjoy the day and said that he would spend a few hours composing a palindrome—a sentence the letters of which are in the same order whether read forward or backward.

"All right," said one of the party, "but you'll never beat the sign I saw in a country store when I was a boy and red root was in some demand: "RED ROOT PUT UP TO ORDER."

When the party returned the sick man's face wore a triumphant smile as he handed the following lines to his friend:

To prove him to a doubting maid,
Sed a bold, dangerous task essayed,
And when he came in triumph home
She answered with a palindrome,
Ere half his fervent plea was done,
"Now, Ned, I am a maiden won."
—Youth's Companion.

England's Most Beautiful Village.

When Sir John Gort succeeded his brother in his Wiltshire property he became the owner of what is held in the west country at any rate, to be the most beautiful village in England. All visitors to Bath are supposed to have missed their opportunities unless they have been to Castle Combe, and indeed the sweet little place is so extensively visited, although it is five and a half miles from any railway, that during the summer months provision is made on the last day of the week for from 800 to 1,000 trippers. The surrounding scenery is not less picturesque than the village itself, and to those who are interested in such matters there is also the attraction of a long history. The church of Castle Combe, which is ancient, has been restored without being spoiled.—Westminster Gazette.

It controls one great lease of about twelve thousand acres north-west of the rich Healdton oil pool on a reported greater anti-cline than Healdton. Derrick is being moved in and drilling will start at once at our choice location on this property where a great producer can be expected. The Healdton field covers less acreage and is now estimated to be worth nearly a quarter of a billion dollars.

Also this Company has recently secured a lease of nearly five thousand acres in Stephens County, Oklahoma, several hundred acres of which are in line between a rich pool near Duncan and another near pool north of Ringling and that is developing enormous gas wells at a shallow depth. Bound to be big oil near this gas.

A reported 1700-barrel gusher has just been secured about three miles southeast. A big boom has started in the southern district. Leases are selling as high as five hundred dollars per acre. Drills will be started at once on our valuable property on this great lease in Stephens county.

By Monday, July 10, five to seven new wells in different districts should be completed. Some of them are certain to be rich producers and will justify an advance on the stock from 6 to 45 per cent, which will immediately follow on the advertised price as stated herein.

This Company is offering the moderate investor a real opportunity. It is backed by sufficient strength to continue a big drilling operation until rich results are secured. It now has nearly one hundred and fifty (150) producing oil and gas wells— and room for about two thousand more. It has three refineries; over 165 miles of pipe line. The Company owns its own tank cars and oil marketing stations. It is the pioneer independent in control of a market direct to the people. With just average good luck in our drilling operations the combined properties of this Company should reach a value to the stockholders of over forty million dollars.

The oil fields of the Middle West have hardly been scratched. The future for this powerful independent is almost unlimited. Millions have been made in oil and millions will be made in oil. The Uncle Sam Oil Company is the great People's Company, owned by nearly twenty thousand stockholders, representing every congressional district in the United States. It has fought its way thru persecution to prosperity. It is really the only big oil stock Company that puts its proposition down in black and white and thru the Independent Press takes the public into its confidence.

It is determined to raise \$200,000 for quick drilling operations during the immediate future. Good propositions do not last long. The future will soon prove that the time to secure the stock is right now, for it is certain to find ready buyers and the present stockholders are continuously paying in large sums.

We plan to invest from 2 to 5 million dollars in new properties and drilling new oil wells. The final authorized issue of stock will make a total of eight hundred million shares. About half of this amount is yet to be issued, and when issued will certainly pay for Five Hundred (500) new wells. By making yourself a stockholder at once and then increasing your holdings under the stock dividend allotment you can now get control of the stock for a payment which would make the entire capital stock equal to less than two million dollars per value.

The present stockholders would not consider a cash sale of our combined property at less than ten million dollars. The stockholders have only paid in about 2 1/2 million dollars, or a gain now of about four times. The Company has many different leases, each of which may develop into a greater value than all the stock will come to on this basis. At this hour we consider the book value of the stock nearly double the sacrifice offer herein to you.

You will not find another investment in the United States that will come within a country block of this offer. This Company can use new capital in drilling test wells that may increase the value of certain leases 10 to 100 times. Alone you could do but little in the oil fields but your remittance for this stock, combined with a hundred or more, will drill a test well on some of our different leases that by such drilling may jump in value 10 to 100 times.

The stock is allotted on a stock dividend basis. After you are a stockholder you will secure the right of the allotment. The greater your first remittance the greater will be your allotment right.

The production of this Company—right now—when all is marketed will total about Forty Thousand Dollars per month and may be doubled by new wells now drilling. In a year's time, by driving the drills, this production is almost sure to be increased five times and may increase fifty times and cause a phenomenal advance on this stock.

We can operate several drills direct from our present production, but we are determined to push ahead with 40 to 50 drills and will permit you to secure a part of this growing in value oil stock to help drive this necessary development work.

The Uncle Sam Oil Company secured renewals on over Four Thousand (4000) acres of oil leases in the Osage Nation a few weeks ago and is now operating two drills on these Osage leases, and will soon increase to ten drills in a district on our Osage leases between a former fifteen hundred barrel well on the east GAL TWO—6 TO 45 PERCENT ADVANCE production reaches forty thousand a day and a sixty million gas well, that sprayed oil, on the west.

We are drilling a very favorable lease in the Red Fork district, where we are at work with four drills near the middle of over Twelve Hundred acres.

Our chances are good for some big wells on our Ranch Creek leases in Pawnee county, near the center of about fifteen hundred acres.

This Company also owns a substantial property near the center of the township that contains the great Cushing oil field, in line with a reported 14,000-barrel gusher secured

sitions do not last long. The future will soon prove that the time to secure the stock is right now, for it is certain to find ready buyers and the present stockholders are continuously paying in large sums.

6 to 45% Advance on This Oil Stock July 10

6 to 45% Advance on This Oil Stock July 10

To Investors: This company now controls over (30,000) thirty thousand acres of lands and leases in the real oil and gas belt. These properties have been carefully selected and are well blocked into many different properties, reaching into twelve different counties. We have actual work started on twenty-one new wells—four to seven of which should be completed during the next two weeks, including several to the deep sands.

This Company may have over two hundred million dollars of oil in these different properties and is determined to put into operation the balance of forty to fifty drills and keep them going until the Company's production reaches twenty thousand barrels per day.

It controls one great lease of about twelve thousand acres north-west of the rich Healdton oil pool on a reported greater anti-cline than Healdton. Derrick is being moved in and drilling will start at once at our choice location on this property where a great producer can be expected. QUESTIONS ABOUT
SCHOOL BILLS PUZZLESELECTION EXPENSES ARE NOT
CHARGEABLE TO THE BOARD.

Letter from State Superintendent
Read at Session of Board of Education Monday Night—Salaries of Teachers Not Yet Fixed—Superintendent Will Arrange School Calendar.

At the meeting of the board of education Monday night held at the David Prince building, the question of salaries was not discussed as the board does not have available all desired financial information. In addition to the facts already recorded, the record is to include the amount of unpaid bills the board owes. About the most interesting feature of the meeting was the reading of a communication from F. G. Blair, state superintendent of public instruction addressed to Mr. Lippincott as president of the board, and answering various questions propounded in the letter sent by Mr. Lippincott.

One of the principal points mentioned in the letter is that the board of education as now constituted cannot properly be charged with the expenses of the recent school election. There are bills on file for the printing of the ballots and supplies, the time of election officials and for the fees of the attorney employed by the township trustees when seeking advice as to the proper procedure under the law. The trustees have held that in view of all the circumstances that all these expenses should be paid by the board of education and not from the township treasury fund. The letter from Mr. Blair appears below, as does another letter from the state fire marshal making report on examination made of the local school buildings.

The Proceedings

The board met in regular session with all present except member Mr. Call; President Lippincott in the chair.

Mr. Cates was heard regarding the financial statement already published and there was considerable discussion regarding it. The complete financial condition of the board has not yet been fully ascertained as the statement mentioned refers only to actual cash transactions while the board owes a great deal of money for which warrants have not been issued. Since there is much yet to be done before the board can ascertain its exact assets and liabilities the question of salaries wasn't discussed.

All claims unpaid were referred to the president, secretary and chairman of the finance committee to investigate and report in order that the board may know its exact financial condition.

As there is now about \$30,000 in the bank it was decided to pay approved bills which may not draw interest and then salaries entitled to draw five percent interest may be paid with interest drawing warrants which the Ayers National bank will cash and all other claims will be paid as far as the cash on hand will go.

The board decided to ask for a school levy of \$75,000 for next year and \$12,000 building and repair fund. The president and secretary were instructed to issue the certificate to the city council.

Member Hopper, chairman building and grounds committee, read the report of the state fire marshal which appears below.

It was decided to employ C. O. Redding, engineer, and J. A. Barcroft janitor at the high school and D. G. Fernandes janitor of the David Prince building.

Permission was given Mt. Emory Baptist church to use the Washington school grounds for a chicken fry. The matter of repairing the boilers in the first, second and fourth wards was brought up and that as well as various repairs, changes and the like were referred to the building and grounds committee with power to act.

As the rooms in the David Prince building are small it had been suggested that it would be a good thing to turn the auditorium into a study hall similar to the same room in the high school building and the matter was referred to the superintendent and buildings and grounds committee with power to act.

The matter of opening day and other dates was brought up and the whole school year calendar, opening day, vacation time in holidays, was referred to the superintendent with power to act.

The secretary was authorized to advertise for bids for coal for the ensuing year.

Adjourned.
Supt. Blair Explains Board's Powers.
"Springfield, June 12, 1916.
"Pres Julian P. Lippincott,
"Jacksonville, Illinois.

"Dear Sir:
"I have received your letter of the 11th instant. Answering your questions in the order they are submitted, you are advised:

"1. The trustees of schools have no funds available for the employment of an attorney. The distributive fund may be apportioned as prescribed by section 35 of the general school law, and not otherwise. All valid claims shall be paid before distribution in manner following: first, the compensation of the treasurer; second, the cost of publishing the annual statement; third, the cost of a record book, if any; fourth, the cost of dividing school lands and making plats. The balance, it will be seen, shall be apportioned and distributed to the districts and parts of districts in townships in which schools have been kept as required by law during the preceding year ending June 30, according to the number of persons returned under 21 years of age.
"Neither is the board of education of the Jacksonville school district authorized to pay this bill.

"2. The board of education of the Jacksonville school district cannot properly be charged with the expenses of the first election. It is customary for the county superintendent of schools to furnish the necessary blanks. The judges and clerks are entitled to no compensation. They must perform this service gratuitously. Section 265 of the general school law provides, among other things, that trustees of schools, school directors or other school officers performing like duties, shall receive no pecuniary compensation, but they shall be exempt from road labor and military duty during their term of office.

"3. A teacher should not be paid by means of an anticipation warrant. When an order issued for the wages of a teacher is presented and not paid for want of funds, it bears interest at the legal rate of 5 per centum per annum, until paid, or notice given. Your attention is invited to section 81 of the general school law. It is not clear, however, that a board of education operating under the special charter could avail itself of the privileges of this section. I cite it here for future reference.

"When there is no money in the treasury to defray the ordinary and necessary expenses of the district, the board of education may issue warrants against, and in anticipation of any taxes levied for educational purposes to the extent of 75 per cent of the total amount of the tax levied. See section 117, supra. Such warrants do not draw interest. But they enable the board of education to settle with its creditors, each creditor to receive a separate warrant for the amount due him.

"All valid contracts made by the preceding board should be respected. The board of education will be entitled to receive all taxes and other funds to which the Jacksonville school district is entitled and must assume all outstanding obligations.

"4. The supreme court has repeatedly held that taxes levied for one purpose cannot legally be used for that of the other. Where educational funds have been employed to complete a building, the board of education is not authorized to levy a building tax for the purpose of refunding the amount so appropriated.

"5. There are no practicable ways to adjust the existing financial situation, except by curtailing expenses or increasing the rate levied for educational purposes, not to exceed 2 per cent, in the manner prescribed by section 189 of the general school law.

"Yours sincerely,

"F. G. Blair, Superintendent."

STATE FIRE MARSHAL'S REPORT
The State Fire Inspection Department, through their representative, J. E. Gallivan, made an inspection of the school buildings of our city and the following recommendations were made:

That the seating in the High School Auditorium be changed by removing one row of seats from the north and south side of middle seating and place in side aisles.

Do not place chairs in side aisles. Fire extinguishers were ordered placed in the Domestic Science, Manual Training, and Furnace rooms of the High School, also the furnace room of the First Ward School.

In the Third Ward they were ordered placed in the Domestic Science, Manual Training and Furnace rooms; in the Third Ward Branch one was ordered for each floor and the furnace room; in the Fourth Ward one was ordered for the Domestic Science, Manual Training and Furnace rooms.

The electric wiring in the furnace room of the High School was reported very poor and needs attention. Some of the wires in the boys' toilet in the High School are loose.

Fire cones were recommended for the Eighth Grade and High School buildings; also for each floor in the Third Ward Branch. These cones to be placed in a convenient place accessible to all rooms.

The hole in the ceiling of the Manual Training room in the High School building should be stopped up.

The inspector recommends that all outside doors be left unlocked and be provided with stops so that they can be left unbolting.

He found that one side of the door at the east and south entrances of the High School was bolted. In the Fourth Ward building one of the entrances was bolted as well.

In the Fourth Ward in one of the rooms on the third floor a radiator is in front of one of the windows at the fire escape.

The inspector recommends that all doors that open in, whether class room doors or exit doors, be changed to open out. In the First Ward, rooms 2, 3, and 5 and the gymnasium were found to open in. Class room and exit doors of the First Ward Branch all open in. A great many of the doors in the Fourth Ward building open in.

The inspector further recommends the purchase of a new stove for the First Ward Branch as the present stove is entirely unsafe.

The scuttle hole in one of the ceilings in the Third Ward Branch should be covered.

By all means the rubbish in the basements in the school buildings should be taken care of. The most conspicuous places where rubbish was found was in the Third Ward Branch and the Fourth Ward school.

The department insists that janitors be in the school building during the school hours. The inspector says that when he visited the Third Ward Branch at 2:30 in the afternoon he could not find the janitor about the premises.

IF YOU FORGET
to secure fireworks you can buy them today at LANE'S BARGAIN Book Store.

Frank Robinson who has been attending school at Normal has returned for a short visit over the Fourth.

NO ISSUE OF JOURNAL TOMORROW

In order to permit employees of the Journal to enjoy July 4th as a holiday there will be no issue of this paper tomorrow. This notice will be recalled should there be any important development in the Mexican situation.

THE COUNTY FEDERATION OF CLUBS

Will Meet at Nichols Park Today and Discuss Important Subjects.

The county federation of clubs is to have its second annual gathering at Nichols park tomorrow, Wednesday and spend the greater part of the day in discussing subjects pertaining to the great anti-tuberculosis crusade. In the forenoon at eleven, Walter B. Thurber of Chicago, secretary of the state anti-tuberculosis league will address the convention on what the counties are doing and as he is an able speaker and well posted on his subject his address will be of much interest. Next Dr. Josephine Milligan of this city will speak of the 20th district convention after which will come the picnic dinner. In the evening Dr. Hieronymus, community adviser of the federation of clubs will make an address.

The public will be welcome at these exercises and all who choose may take picnic dinner.

Mr. and Mrs. Alvin Schumacher and daughter arrived in the city yesterday from Chapin.

J. M. Daniels of Literberry was transacting business in the city yesterday.

W. H. Crum, wife and daughter, came down from Literberry yesterday to arrange for a home 4th of July celebration.

Mr. and Mrs. Irvin Mann of Pisgah represented their part of the county in the city yesterday.

Miss Mary Moxon is visiting her brother at Modesto.

Mrs. J. D. Hembrough of Asbury vicinity was a city shopper yesterday.

Miss Stella Goodpasture of Concord had occasion to visit the city yesterday.

Miss Jean Jenkinson has returned from a visit with friends in Waverly.

Lloyd Yeck of Arenzville visited the city yesterday.

W. W. Davis of Canton was a city caller yesterday.

COL. LOWDEN TO MORGAN COUNTY REPUBLICANS.

As you are doubtless aware, I am a candidate for the Republican nomination for governor.

So long as there was the possibility of a candidate for that office from Morgan county, I made no campaign or effort of any kind there, aside from my general publicity work.

Now that there is to be no candidate from you county, I will certainly appreciate your support.

Yours truly,
Frank O. Lowden

PICTURES OF SPANISH AMERICAN WAR VETERANS.

Dr. H. L. Griswold recently found in the attic of his home, a framed roster of the members of Company 5, 5th infantry made just as they went south on account of the Spanish-American war. He found also a picture of the company taken at Camp Lincoln a year after the war.

Both pictures are owned by Julian W. Hall who was bugler of the company. They are now in the window of the Journal office and are of special interest at this time when a roll is daily expected for company B.

AUTO TRIP TO NEW YORK.

Mr. and Mrs. Henry Greenstone will leave this afternoon in their car for St. Louis. There they will be joined by Mr. Greenstone's brothers, J. L. Greenstone of Kansas City, and A. I. Greenstone of St. Louis, and J. I. Ollian of St. Louis. They will travel to Chicago, where Mrs. Greenstone will visit relatives and other members of the party will then travel across country to New York City, for a market visit of two weeks.

HUSBAND DISAPPEARS WITH WIFE'S JEWELS AND CASH

Story of Mr. and Mrs. J. M. Scobey's Troubles are Told in a Wichita Paper.

The Wichita Beacon gives the following story about Mr. and Mrs. J. M. Scobey, who are credited with owning considerable Jacksonville property:

"The disappearance of J. M. Scobey from the Baltimore Hotel three weeks ago with money and diamonds to the value of \$4,000 has been explained. He was arrested in Mason City, Ia., late yesterday on a charge of wife desertion and will be brought to Wichita by Frank Rogers, deputy marshal of the City Court.

Pythian Memorial Service Held Sunday Afternoon

Committees Visited Cemeteries to Decorate Graves of Deceased Members—Addresses Made by E. E. Bone and John J. Reeve.

The members of the two lodges of Knights of Pythias observed memorial day Sunday. Impressive services were held in Castle Hall Sunday afternoon with past grand chancellor E. E. Bone as the principal speaker.

In the morning committees from the two lodges visited the graves of departed brothers who are buried in local cemeteries. From Jacksonville lodge No. 152 the committee was composed of T. M. Tomlinson, Charles Buhner, C. A. Howard, J. K. Long, B. C. Lair, Roland Stice, H. L. Barrows, J. B. Sibert, H. J. Capps, George A. Wiseman, John S. Shepard, Ray Hartman and R. I. Dunlap. From Favorite Lodge No. 376 J. E. Claus, Charles Rattachak, N. A. Brannon and Charles Reinhold, composed the committee. The committees were transported to the cemeteries in automobiles. The committee of Jacksonville Lodge No. 152 decorated the grave of J. A. Kelley, member of the lodge at Hayden, Arizona, who died at that city, and was brought here for burial two weeks ago.

A good attendance marked the joint services in the afternoon. The invocation was given by Dr. A. B. Morey after which Grand Vice Chancellor John J. Reeve spoke on "Our Departed Brothers." He paid tribute to those who had departed and told of the work they had done for the order. Two beautiful solos were then rendered by Mrs. Roland Stice with Miss Dean Obermeyer as accompanist. She sang "Crossing the Bar" and "Resignation."

After this Past Grand Chancellor E. E. Bone gave a very fitting and appropriate address on the heroism of the Knights of Pythias in fighting the battles of peace and friendship. Fleet McClelland rendered Dvorak's Humoresque and a Perfect Day by Carrie Jahos Bond.

Departed Knights.

The following are the names of the deceased Knights of the two lodges:

Jacksonville lodge, No. 152—A. W. Hackman, E. B. Smith, E. J. King, A. G. Brook, Caesar Mayfield, J. H. Kellogg, Otto William, J. H. Starks, William Benson, Warren Case Sr., Dennis Havey, G. E. Doying, Sr., Oscar Peterson, John R. Davis, Harry Wadsworth, George Martin, H. J. Johnson, J. E. Rickert, Wilber Anderson, C. W. Brown, J. A. Goltra, Dr. Brock Mayfield, E. D. Ward, Judge C. A. Barnes, William L. Ransdell, W. H. Galbraith, George L. Merrill, Norman Broadwell, N. K. Jerald.

Favorite lodge, No. 376—H. E. Wood, George W. Gilliam, George Porter, William E. Waters, Samuel C. Aters, J. W. Robinson, John DeLapp, Edward Davenport, C. E. Burkholder, W. E. Baker, John W. Harney, Bert Taylor, Oscar L. Sooy, John M. Moore, John P. Slaten, Lester McDougall, William I. Brown, Frank B. Ragsdale, Robert Tilton.

STREET CAR SCHEDULE FOR TODAY

Beginning at 11 o'clock this morning and continuing the remainder of the day the North Main street line will operate independently of the rest of the system. All South Main street cars will turn back at the square.

Charles Duffer, Supt.

EDW. ALEXANDER WINS VALUABLE SCHOLARSHIP

Two years ago the Knights of Columbus voted a sum of \$500.00 for scholarships to be available for members of the order and their sons at the Catholic university in Washington, D. C. It was learned Monday that the local council will have a representative at the university this year in the person of Edward Alexander, son of Mr. and Mrs. Paul Alexander. In May Mr. Alexander took the examination and made the excellent grade of 91.7. He was notified of his appointment Monday and was receiving congratulations from his friends because of this honor. The scholarship has a large monetary value. Tuition alone at the university is \$500 a year and Mr. Alexander's scholarship covers not only tuition but board and all other expenses for the three year period.

Many most desirable styles of mid summer HATS for Men, makes selections easy of FRANK BYRNS Hat Store.

THE STORY OF A RING.

According to the reports made to the police yesterday, Kent Johnson and Miss S. Cordrey were missing. Johnson has been keeping company with the girl for some time and a few weeks ago a warrant was sworn out by her mother charging him with the larceny of a ring belonging to the daughter. It seems that the young man and girl had exchanged rings and when Johnson was asked to return her ring he refused to do so. Sunday Johnson returned to the city from an out of town stay and was arrested by Patrolman Baker. He was willing to return the ring and it was filed from his finger and the suit dismissed. Sunday evening Miss Cordrey went walking with Mr. Imboden, and according to the story the two met Johnson on the street and the girl went away with him. Inquiry at Miss Cordrey's home last night brought the information that she had not been heard from and the story is that an elopement has taken place.

NOTICE

Our store will be open today for the benefit of our friends and patrons.

HOME FROM THE WEST

Chas. H. Ward has returned from his tour of the west and feels much refreshed and improved by the trip. His first place of detention was the Grand Canyon in Arizona and there he remained long enough to enjoy the wonders of that mighty spectacle and then proceeded to Los Angeles where he was present during the triennial convocation of the Knights Templar and participated in the parade which has some 15,000 plumes in line while about 8,000 didn't march. In the evening there was an electrical parade with eighteen floats which was fine. He went over to Catalina Island, ascended Mt. Lowe, visited Pasadena and the Universal City where the movies are made.

Leaving Los Angeles he visited the Mariposa big tree grove, the Yosemite valley and rode up to Glacier Point and saw all the sights of that vicinity and then on to San Francisco where he took in the Cliff House, presidio, Chinatown and other sights, went over to Berkeley, Oakland, Piedmont and other places and then homeward by the Western Pacific thru Salt Lake City, Denver and other places.

NOTICE

Our store will be open today for the benefit of our friends and patrons.

MOTORED TO GREENE COUNTY

Y. P. Day and family of Jacksonville and Miss Lena Stillwell of the Asbury neighborhood drove to Greene county Sunday to spend the day with friends. They drove in Mr. Day's Palmer car and had a very enjoyable visit.

NOTICE

Our store will be open today for the benefit of our friends and patrons.
